Silicone Dielectric Compound

Soft, inert silicone grease with excellent dielectric properties. Usable over a wide range of temperatures. Its consistency is vaseline-like and it is white opaque in color. It provides an excellent dielectric coating which excludes moisture and prevents high voltage arcing. Applicable to components in the high voltage section of TV receivers. Protects ignition systems in automobiles and boats, in addition to providing an outstanding corrosion resistant coating on exposed metal surfaces, such as TV antenna terminals as well as general rustproofing. This compound also makes an excellent lubricant for rubber or plastic.

Anti-Seize Compound

Specifically engineered to resist seizing and corrosion on any threaded surface up to 2100°F. This is an excellent product for eliminating seizing of soldering iron tips, especially threaded types. Will prevent seizing, "cold-welding" and fretting corrosion of all metal threads; a preliminary degreasing with Trichloroethane or similar solvent is suggested for maximum benefit. Apply by dipping, brush, etc.

Belt & Drive Non-Slip

Prevents slippage in mechanical or electro-mechanical devices which are driven with cords, belts, pulleys and drives. Restores proper functions on belts and drive pulleys in turntables, record changers and tape recorders, especially where the rubber parts have hardened and/or become slick and cause slippage.

Part No. 10-8602 2 fl. oz. Bottle w/ Brush

Re-Grip

Cleans and revitalizes hardened and glazed rubber drives and belts of record changers, etc. Gives racing models more grip. Eliminates slipping and squealing. Brings new life to dried rubber drive belts. Reduces the need to replace belts, saving maintenance downtime.

GC Touch Dispenser

Stops waste. Dispense only as much fluid as needed for the job. Saves time and effort. No stopper or cap to remove. One-handed touch on the dish dispenses the required amount of fluid, leaving the other hand free. Prevents contamination. Liquid in bottle stays clean until used. Fluid pumped into dish doesn't drip back into bottle. Hinged lid protects dish when not in use. Use with all GC cleaner/degreaser and defluxing solvents. Not for use with iodine, acids or bases.
