

HYDROCARBON PRODUCTS

Big Bath® ISO

Big Bath ISO does not deplete the ozone layer. Safe on all plastics. Contains no HCFC's. Cleans and restores relays, controls, switches, etc. Removes oil, dust and other contaminants. Leaves no residue. For use on de-energized equipment. Flammable.

Part No. 19-904 9 oz. Aerosol

Jiffy Bath

Consists of hydrocarbon solvents, safe for use on most materials. It possesses a balanced ratio of cleaning solvents for lubricating and protecting ingredients. Contains silicone oils which will not oxidize and will remain active as protective coating and lubricating agent for years, even under adverse environmental conditions such as high humidity and contaminated atmosphere. One of the most universal and safe contact cleaners and may be used on all rotating and sliding contacts in any types of switches or controls.

Part No. 19-638 4 oz. Aerosol

Part No. 19-640 10 oz. Aerosol

GC Natural Citrus Cleaner

Excellent non-corrosive cleaner/degreaser with pleasant citrus scent. Safely removes most adhesives, plastics and tape residue. Created out of concern for the environment, this natural citrus cleaner is effective for removal of adhesives, grease, oil, stains, road tar, rubber marks, residue from decals, heel marks, graffiti, lipstick, release agents, and even soap film. Use where chlorinated solvents are not recommended. This can be used safely on most substrates, including painted surfaces, glass, porcelain, concrete, and is compatible with most plastics. This product does not contain ozone depleting chemicals. No CFC's. No HCFC's. Do not use as an electrical contact cleaner.

Part No. 19-701 12 oz. Aerosol

Replaces Part No. 19-700

DE-OX-ID

Solventless, light oil based contact treatment compound with active ingredients to counteract oxidation. Lowers contact resistance, inhibits arcing, lubricates and protects against corrosion. For use on connectors, sockets, potentiometers, switch contacts, battery connections, telescoping antennas, relay and thermostat contacts. Should be applied sparingly (e.g. with a toothpick or a hypodermic needle injector) on dirty, dusty and heavily oxidized contacts. Preaming with a solvent type cleaner is recommended. Best results are obtained with small amounts.

Part No. 19-1902 2 oz. Bottle

Part No. 19-1906 4 oz. Aerosol

Little Bath

Hydrocarbon (petroleum) based cleaner/lubricant. Provides long lasting lubricating and oxidation protection for electrical controls and contacts.

Applications include: switches, contacts, potentiometers, tools, mechanical and electrical components.

Not for use on energized equipment. Safe for most plastics, check for compatibility.

Part No. 19-723 4 oz. Aerosol

GC Bath

Contact Cleaner/Degreaser for De-Energized Equipment

GC Bath is formulated with hydrocarbons/ alcohol as a heavy duty cleaner/degreaser. Exceptional performance can be expected where heavy buildups of grease, oil, dirt, grime, adhesive, and other unwanted substances are encountered. This strong action product can be sprayed on the surface to break down, wash away, and clean grease from equipment, floors, work areas, engines, metal parts, and any area needed to be cleaned. GC Bath has been found to be effective to remove adhesive and adhesive over spray from surfaces. Test for compatibility with sensitive plastics. GC Bath is formulated with no chlorinated solvents and thus has no ozone depleting chemicals. No CFC's. No HCFC's.

Part No. 19-724 4 oz. Aerosol

Part No. 19-725 10 oz. Aerosol

Part No. 19-725-55G 55 gal., 360 lbs. Wt.
