

# OMRON®

## General Purpose Relay

## MK

- Exceptionally reliable general purpose relay
- Long life (minimum 100,000 electrical operations) assured by silver contacts
- Built-in operation indicator (mechanical, LED), diode surge suppression, Varistor surge suppression
- The contact operation can be easily checked by mechanical indicator and/or push-to-test button options
- Conforms to CENELEC standards
- VDE approved versions available

## Ordering Information

To Order: Select the part number and add the desired coil voltage rating (e.g., MK3P5-S-AC120).

| Type                       | Terminal | Coil  | Contact form | Part number          |  |
|----------------------------|----------|-------|--------------|----------------------|--|
|                            |          |       |              | Mechanical indicator | Mechanical indicator & push-to-test button |
| Standard                   | Plug-in  | AC/DC | DPDT         | MK2P-I               | MK2P-S                                     |
| LED indicator              |          |       | 3PDT         | MK3P-5-I             | MK3P-5-S                                   |
|                            |          |       | DPDT         | MK2PN-I              | MK2PN-S                                    |
|                            |          |       | 3PDT         | MK3PN-5-I            | MK3PN-5-S                                  |
| LED indicator and diode    |          | DC    | DPDT         | MK2PND-I             | MK2PND-S                                   |
|                            |          |       | 3PDT         | MK3PND-5-I           | MK3PND-5-S                                 |
| LED indicator and varistor |          | AC    | DPDT         | MK2PNV-I             | MK2PNV-S                                   |
|                            |          |       | 3PDT         | MK3PNV-5-I           | MK3PNV-5-S                                 |
| Diode                      |          | DC    | DPDT         | MK2PD-I              | MK2PD-S                                    |
|                            |          |       | 3PDT         | MK3PD-5-I            | MK3PD-5-S                                  |
| Varistor                   |          | AC    | DPDT         | MK2PV-I              | MK2PV-S                                    |
|                            |          |       | 3PDT         | MK3PV-5-I            | MK3PV-5-S                                  |

Note: 1. Reverse polarity versions available on DC coil types. Consult your OMRON representative for further information.  
2. VDE approved versions are available. Consult your OMRON representative for further information.

### ■ ACCESSORIES (Order separately)

To Order: Select the appropriate part numbers for sockets, clips, and mounting tracks (if required) from the available types chart.

#### Track mounted sockets

| Relay type   | Part number     |                      |  |
|--------------|-----------------|----------------------|--|
|              | Socket          | Relay hold-down clip | Mounting track/end plate                                       |
| SPDT<br>DPDT | <b>PF083A-E</b> | <b>PFC-A1</b>        | <b>PFP-100N</b> or <b>PFP-50N</b> and <b>PFP-M</b> (end plate) |
| 3PDT         | <b>PF113A-E</b> | <b>PFC-A1</b>        | <b>PFP-100N</b> or <b>PFP-50N</b> and <b>PFP-M</b> (end plate) |

## ■ ACCESSORIES (continued)

### Back connecting sockets

| Relay type   | Part number    |                      |
|--------------|----------------|----------------------|
|              | Socket         | Relay hold-down clip |
| SPDT<br>DPDT | <b>PL08</b>    | <b>PLC-E</b>         |
|              | <b>PLE08-0</b> | <b>PLC-10</b>        |
|              | <b>PL08-Q</b>  | <b>PLC-E</b>         |
| 3PDT         | <b>PL11</b>    | <b>PLC-E</b>         |
|              | <b>PLE11-0</b> | <b>PLC-10</b>        |
|              | <b>PL11-Q</b>  | <b>PLC-E</b>         |

## Specifications

### ■ CONTACT DATA

| 12                  | 126                           | 95                  | 0.963                            | 0.449       |                               |                 |                 |                        |
| 24                  | 56                            | 430                 | 4.915                            | 2.478       |                               |                 |                 |                        |
| 48                  | 29.5                          | 1630                | 16.685                           | 10.487      |                               |                 |                 |                        |
| 110                 | 15.1                          | 7300                | 80.2                             | 42.6        |                               |                 |                 |                        |

- Note: 1. The rated current and coil resistance are measured at a coil temperature of 23°C (73°F) with a tolerance of ±15% for DC rated current and +15%, -20% for AC rated current.  
 2. The rated current is reference value.  
 3. Performance characteristic data are measured at a coil temperature of 23°C (73°F).  
 4. For models with the LED indicator built-in, add an LED current of approximately 0 thru 5 mA to the rated current.

## ■ CHARACTERISTICS

|                       |                        |   |
|-----------------------|------------------------|---|
| Contact resistance    |                        | 50 mΩ max.  |
| Operate time          |                        | AC: 20 ms max. DC: 30 ms max.   |
| Release time          |                        | 20 ms max.  |
| Operating frequency   | Mechanical             | 18,000 operations/hour  |
|                       | Electrical             | 1,800 operations/hour (under rated load)  |
| Insulation resistance |                        | 100 MΩ min. (at 500 VDC)  |
| Dielectric strength   |                        | 2,500 VAC, 50/60 Hz for 1 minute between coil and contacts<br>1,000 VAC, 50/60 Hz for 1 minute between contacts of same poles, between terminals of the same polarity<br>2,500 VAC, 50/60 Hz for 1 minute between current-carrying parts, noncurrent-carrying parts, and terminals of opposite polarity |
| Vibration             | Mechanical durability  | 10 to 55 Hz, 1.50 mm (0.06 in) double amplitude   |
|                       | Malfunction durability | 10 to 55 Hz, 1.00 mm (0.04 in) double amplitude   |
| Shock                 | Mechanical durability  | 1,000 m/s <sup>2</sup> (approx. 100 G)  |
|                       | Malfunction durability | 100 m/s <sup>2</sup> (approx. 10 G)   |
| Ambient temperature   |                        | Operation: -10° to 40°C (14° to 104°F)  |
| Humidity              |                        | 35 to 85% RH  |
| Service Life          | Mechanical             | 10 million operations min. (at operating frequency of 18,000 operations/hour)   |
|                       | Electrical             | 100,000 operations at rated load (at operating frequency of 1,800 operations/hour)  |
| Weight                |                        | Approx. 0.85 g (3.0 oz)   |

Note: Data shown are of initial value.

## ■ ACCESSORIES

### Track mounted socket PF083A-E (conforming to DIN EN 50022)

#### Terminal arrangement

#### Mounting holes

#### Mounting dimensions of relay with socket

Note: Model PF083A-E can be used as a front connecting socket.

### Track mounted socket PF113A-E (conforming to DIN EN 50022)

#### Terminal arrangement

#### Mounting holes

#### Mounting dimensions of relay with socket

Note: Model PF113A-E can be used as a front connecting socket.

### Back connecting socket MK2 sockets (8 pin)

#### PL08 (UL File No. E87929) Solder terminals

#### PL08-Q Wire wrap terminals

### Printed circuit board socket PLE08-0

#### Mounting holes PL08

Mounting holes and panel cut-out applies to PL08 and PL08-Q

#### PL08 type sockets and MK2 relay Total height dimension

#### Recommended PCB layout PLE08-0

Unit: mm (inch)

## ■ ACCESSORIES (continued)

### Back connecting socket

## MK3 sockets (11 pin)

**PL11 (UL File No. E87929)**

**Solder terminals**

## PL11-Q

### Wire wrap terminals

## Printed circuit

board socket

**PLE11-0**

### Mounting holes

PL11

Mounting holes and panel cut-out  
applies to PL11 and PL11-Q

### PL11 type sockets and MK3 relay

**Total height dimension**

NOTE: Hold down clip recommended.

### Recommended PCB layout

**PLE11-0**

## Mounting tracks

**PFP-100N/PFP-50N**

(conforming to DIN EN 500022)

**PFP-100N2**

(conforming to DIN EN 500022)

Note: 1. \*This dimension applies to mounting track PFP-50N.

2. A total of twelve 25 x 4.50 mm (0.98 x 0.18 in) elliptical holes is provided with six holes cut from each rail end at a pitch of 10 mm (0.39 in) holes.

**PFP-M end plate**

**Note:** Use of Type PFP-M end plate is recommended to secure the socket on the mounting track. Be sure that the engraved arrow mark on the surface of the end plate faces upward and then tighten the screw firmly with a screwdriver.

## ■ APPROVALS
