

# 9104 Series / Hi Voltage SIP Reed Relays

**NEW!**

## Hi Voltage SIP Reed Relays

Molded SIP relays are the industry standard when high reliability and consistent performance are desired in a compact package. The 9104 Series adds high voltage switching capability and high voltage standoff capability to a SIP relay package. These high voltage, high performance relays are ideally suited for Automatic Test Equipment, Instrumentation, and Process Control applications where voltage isolation is a key design requirement.

## Series Features

- ◆ High voltage switching up to 1000 V
- ◆ High dielectric strength (2000 V DC)
- ◆ High Insulation Resistance –  $10^{11} \Omega$  minimum
- ◆ High reliability, hermetically sealed contacts for long life
- ◆ High speed switching compared to electromechanical relays
- ◆ Molded thermoset body on integral lead frame design
- ◆ Optional Coil Suppression Diode – protects coil drive circuits
- ◆ Magnetic Shield – reduces interaction
- ◆ UL File # E67117
