

The MultiConnect® Cell 100 Series cellular modems are a part of MultiTech's comprehensive line of modems for M2M (machine-to-machine) communications. All MultiConnect Cell 100 Series modems are fully certified and carrier approved, so you can get to market extremely fast, allowing customers to start obtaining the benefits of M2M. Designed specifically for M2M applications, they provide a long, stable lifecycle and are durable, reliable and easy to deploy. In addition, the MultiConnect Cell 100 Series is available with several different interface options to cover a variety of application needs.

- · 4G, 3G and 2G models available
- · LTE, GSM and CDMA models available
- Models with USB or RS-232
   Serial interfaces
- · Configured using AT commands
- FCC, PTCRB, Industry Canada, and R&TTE certified
- · Rugged, military and SAE tested
- Two-year warranty, upgradable to five years

#### **BENEFITS**

- Quick deployments to shorten time to market
- · Long and stable lifecycles
- · Certified and carrier approved

<sup>\*</sup> Actual performance speeds may be affected by a variety of attributes such as cell tower distance, data loads, packet sizes, etc.

<sup>&</sup>lt;sup>†</sup> Device has been tested up to +85° C. UL Recognized @ 40° C, limited by AC power supply. UL Recognized @ 60° C when used with the fused DC power cable, part number FPC-532-DC. Note: The radio's performance may be affected at the temperature extremes. This is considered normal. There is no single cause for this function. Rather, it is the result of an interaction of several factors, such as the ambient temperature, the operating mode and the transmit power.

#### **HIGHLIGHTS**

#### **Applications**

The MultiConnect Cell 100 Series cellular modems are ideal for automated machine-to-machine applications such as remote diagnostics and remote monitoring which periodically need to send or receive data over a wireless network.

# Comprehensive Service and Support

The MultiTech commitment to service means we provide a two year product warranty and service that includes free technical support, 24 hour website, and FTP support.
