

Serial ATA (SATA) Latching Signal Cable (7Pin/7Pin), 8-in.

MODEL NUMBER: **P940-08I**

Highlights

- Connect your high-speed Serial ATA device to a Serial ATA controller
- Support data transfer rates of up to 6.0 Gbps (SATA II)
- Cable is shielded to protect against EMI/RFI

System Requirements

- Serial ATA device
- Serial ATA controller

Package Includes

- P940-08I Latching Serial ATA Signal Cable - 8 in.

Description

Tripp Lite expands its line of hard drive cables with the introduction of our new line of serial ATA cables. This 8inch signal cable connects any high speed Serial ATA device to a Serial ATA controller. Serial ATA delivers two significant benefits: it supports much higher data transfer rates (up to 6.0 Gbps) and the narrow cable design helps improve internal air flow. Perfect for the desktop or server that has multiple drives. These cables feature 7-pin female latching connectors and offer easy, secure installation.

Features

- Connect your high-speed Serial ATA device to a Serial ATA controller
- Metal latches ensure secure connections
- Support data transfer rates of up to 6.0 Gbps
- Narrow cables design:
 - 1) simplifies cable routing and installation
 - 2) improves air flow within CPU (no more big ribbons blocking air movement)
- Meets Serial ATA 1.0 standards, including Errata 029
- Cable is shielded to protect against EMI/RFI
