

**TECHSPRAY™**

Product Information

# Contact Enhancer

Connector Protectant

**2111**

---

## Introduction

An effective coating containing polyphenyl ether designed specifically for improving conductivity. Contact Enhancer is designed to protect electronic connections during storage, transportation and operation. This synergistic formulation cleans contacts while applying a protective coating. Product provides lubrication to the connector for insertion while forming a non-insulating barrier. Even under harsh conditions such as high temperatures, the protective film will remain stable.

### Features / Benefits

Cleans and Protects Connectors  
Lubricates for Easy Insertion  
Prevents Oxidation  
Non-Corrosive  
Contains Polyphenyl Ether  
Safe on Precious Metals

---

## Chemical Components

<b>2111-N</b>		
Isopropanol.....	(67-63-0)	97-98%
Polyphenyl Ether		2.5%
Optical Brightener		<.1%

---

## Environmental Policy

Techspray® is committed to developing products to ensure a safer and cleaner environment. We will continue to meet and sustain the regulations of all federal, state and local government agencies.

---

## Packaging and Availability

Contact Enhancer may be ordered in the following container size:

2111-N                    1 10 ml Pen

## Resources

---

Techspray® products are supported by a global sales, technical and customer services resources.
