

New!!!

FEATURES

- Constant voltage and current operation
- Excellent load, line & ripple specifications
- Large LCD display with back light
- Readout for voltage and current
- Overload protection circuit
- Series or parallel operation
- Extended output terminals
- Automatic cooling fan operation
- 10-turn voltage control for precise voltage settings

SPECIFICATIONS

Output	Voltage	Dual 0 to 30V
	Current	Dual 0 to 3A
Constant Voltage	Load Regulation (0 to 100% load variation)	< 0.02% + 3mV
	Line Regulation (0 to 10% line variation)	< 0.02% + 3mV
	Ripple & Noise (rms)	0.5mV rms
Constant Current	Load Regulation (0 to 100% load variation)	< 0.3% + 3mA
	Line Regulation (0 to 10% line variation)	< 0.3% + 3mA
	Ripple & Noise (rms)	3mA rms
Power	Input Voltage Source	120V/220VAC, 50/60Hz
	Power Consumption	305W
Dimension & Weight	Size (W x H x D)	10.6 x 7.5 x 13.0 (inches)
	Weight	22.0 lbs
Accessories	Instruction Manual, Power Cord, Test Leads
