

Product Facts

- **Lightweight power unit** — 2.3-3.3 lb [1.0-1.5 kg]; easy to handle
- **Small size power unit** — 11.6-12.9 [295-325]; useful in confined work areas
- **Tool holders accept interchangeable crimp head assemblies to apply a variety of product lines:**
 - Insulated and uninsulated terminals and splices
 - Insulated closed end splices
 - Insulated tabs and receptacles
 - Pin and socket contacts
 - Coaxial connectors
 - Modular plugs
 - Fiber optic connectors
- **Terminates a wire range of 6-26 AWG [13-0.12 mm²], plus coaxial and fiber optic cable**
- **Operates by hand or foot switch**
- **Ratchet control available to provide complete crimp cycle — helps eliminate partial crimps**
- **Head assembly can be rotated to any angle to suit the operator**
- **A mark adjacent to a crimping head or adapter part number indicates it conforms to European Union Directives in hand-held applications**
- **Produced under a Quality Management System certified to ISO 9001**

A copy of the certificate is available upon request.

Customer Manual

409-5862 626 Pneumatic Tool Assemblies

Instruction Sheets

Listed in charts on pages 2 through 4

The 626 Pneumatic Tool System, as the name implies, will apply a broad range of products in the 6-26 AWG [13-0.12 mm²] wire range. A basic 626 Pneumatic Tool System requires a power unit, a tool holder, a crimp head assembly and a die set, when applicable.

This premium system is well suited for low- to medium-volume bench production and harness assembly operations. Since the crimp head can be rotated to any angle, the operator can also work on more difficult terminations in confined equipment cabinets or enclosures.

The crimping force is provided by a single power unit that can be hand held and actuated by a hand or foot switch. Tool holders with a ratchet feature are available to produce a complete crimp cycle; simply depressing the hand or foot

switch makes the dies fully bottom before you can open the jaws to release the crimped product. Now you have virtually the same complete crimp cycle control provided by the mechanical ratchet of premium CERTI-CRIMP hand tools — with much less operator effort.

Interchangeable tool holder assemblies and crimping heads are available to crimp a variety of products. Crimping heads for the earlier Model 2614 pneumatic power unit can be used with the 626 Pneumatic Tool System. If you are already using AMP® hand tools, many crimp heads and die sets can be removed, attached to an adapter with quick pins and used with the 626 Pneumatic Tool System. An adapter is even available to accept lower cost die sets of the PRO-CRIMPER II hand tool.

Power Unit

Specifications

Outside Diameter — 1.83 [45]
Length — 8.88 [225] (9.00 [230] for Part Number 189721-1)
Grip Span — 2.19 [55] over button/handle
Weight — 1.32 lb [0.60 kg] (1.58 lb [0.72 kg] for Part Number 189721-1)
Air Pressure — 90-100 psi [6.21-6.89 bar]
Air Displacement — 11.14 in³ [0.00018 m³]
Air Supply Hose — 10 ft [3.05 m] long, 3/16 [4.8] I.D. with 1/8 [3.2] NPT fitting
Cycle Time — 0.7-0.8 s (for 16-14 AWG [1.3-2 mm²] PIDG Terminals)

Style	Power Unit Part Number
Hand Actuated	189721-1*
Foot Actuated	189722-1* (shown)

* Change to "-2" suffix to order Power Unit for use with "C" Head Die Set Adapter.

Notes:

1. Power Units with a "-1" suffix can be converted to "-2" by ordering Booster Addition Kit Part No. 189720-1. (Instruction Sheet 408-4142)
2. 10 ft [3.05 m] Air Supply Hose (Part No. 38111) included with each power unit.
3. Order Tool Holders, Crimping Heads/Adapters separately.

Bench Mount Assembly Part Number 856402-1*

Instruction Sheet — 408-9741

Fully adjustable stand allows operator free use of both hands — recommended for maximum productivity.

Specifications

Base Size — 8 x 8 [200 x 200]
Weight — 6.5 lb [2.9 kg]
Bench Mounting Dimensions — Base has two, 1/4 - 20 tapped holes on 6 [150] centerlines

*Note: Not for use in the European Community

Tool Holders

Specifications

Length with Head Assembly —
 Large — 3.88 [100] avg.
 Small — 2.75 [70] avg.
 Adapter Holder — 5.00 [125] avg.
Weight with Head Assembly —
 Large — 1.68 lb [0.76 kg] avg.
 Small — .96 lb [0.44 kg] avg.
 Adapter Holder — 1.31 lb [0.60 kg] avg.

Adapters, Crimping Heads and Die Sets

For Adapter Holders Part Number 189928-1 and Part Number 356304-1

Note: Adapter Holder NOT required for DAHT Adapter.

These convenient adapters allow you to use the crimping heads and die sets from various CERTI-CRIMP straight action and double action hand tools (SAHTs and DAHTs) with the 626 Pneumatic Tool System. Now, hand tools used for prototype and limited production applications can be easily adapted for low- to medium-volume production.

Quick-release pins attach the crimping head to the adapter. A spring-loaded, slide switch or lever permits quick opening and closing of the die sets for insertion and removal of the crimped product.

¹ Requires removal of crimping head from hand tool assembly.
² Uses same die sets as "C" Head Hand Tool Part No. 69710-1.
³ Requires Power Unit Part No. 189721-2 or 189722-2.

⁴ This is only a partial listing. For die sets to crimp other AMP® product lines, contact the Technical Support Center at 1-800-522-6752.

*** T-HEAD Crimper
Part No. 217202-1**

Used to apply 22-14 AWG [0.3-2 mm²] PIDG Terminals and Splices and PLASTI-GRIP Terminals. (Equivalent to T-HEAD Hand Tool Part Nos. 59170 and 59250.)

**Dual Modular Plug Adapter
Part No. 318510-1**

Accepts **two** die sets. Used to apply Modular Plugs to cable with 28-24 AWG [0.08-0.2] conductors. (Equivalent to Modular Plug Hand Tool Frame Part No. 2-231652-0.)

Modular Plug Style	Die Set Part No.
8-Pos. Line (RJ45)	853400-1 1-853400-2†
4-Pos. Handset (RJ22)	853400-3
6-Pos. Offset-Latch	853400-6
6-Pos. Long Body (RJ11 LB)	853400-7
4-, 6-Pos. Line (RJ12, RJ11)	853400-8 1-853400-1†
8-Pos. High Performance (Cat. 5)	1-853400-0

† For non-AMP modular plugs.
