# Insert your USIM, battery and memory card and charge your mobile

Your 3 USIM can only be used in mobiles which are enabled for 3 services.

If you try to use the USIM in other mobiles you could seriously damage the mobile and may be unable to use it, including making emergency calls. If you do that, we are not responsible for any such damage or usage problems.

## Get the most from your battery

- > You can recharge your battery several hundred times before it will need replacing and you don't need to fully discharge it before recharging.
- > Don't expose the battery charger to direct sunlight or use in areas of high humidity such as a bathroom. Battery life will decrease if you expose it to temperatures below -10°C or above 45°C.
- > If you charge your battery regularly and you notice a decrease in talk time or an increase in charging time, then it's probably time to buy a new battery.
