

7" Wide :TX18D11VM1CAA:800x480

Item	Specifications	Unit
Features	Small footprint High brightness High resolution	--
Display size	7	inch
Number of pixels	800X(RGB)(H) x 480(V)	pixels
Pixel pitch	0.1905(H) x 0.1905(V)	mm
Color pixel arrangement	RGB Vertical Stripe	--
Active area	152.4(H) x 91.44(V)	mm
Display mode	Transmissive mode Normally white mode	--
Color saturation	45% for NTSC	--
Number of colors	262,144	colors
Contrast	200:1(typ.)	--
Brightness	350(C-shaped CFL B/L)	cd/m ²
Wider direction	12 o'clock	--
Viewing angle(CR>10)	V:>105, H:>130(min.)	deg.
Power supply voltage	3.3	V
External dimensions	165.0(H) x 106.0(V) x 10.5(max.)(T)	mm
Weight	170(typ.)	g
Interface	CMOS 6-bit Digital RGB	--
Temperature range	Operation *1	0 to 70
	Non-operation *2	-20 to 70

Specifications may be subject to be change without notice.
Please confirm the latest specifications in advance when designing equipment.

*1 Indicated panel surface Temp. except Inverter.

*2 Excluded display performance. Display performance should be guaranteed on 25°C.
