## BA782S，BA783S

## Bandswitching Diodes

Dimensions in inches and（millimeters）

## FEATURES

－Silicon Epitaxial Planar Diode Switches
－For electronic bandswitching in radio and TV tuners in the frequency range of $50 \ldots 1000 \mathrm{MHz}$ ．The dynamic forward resistance is constant and very small over a wide range of frequency and forward current．The reverse capacitance is also small and largely independent of the reverse voltage．
－These diodes are also available in SOD－123 case with the type designations BA782 and BA783．
