# 捷多邦,专业PCB打样工厂,24小时加急**SM74LVC1G11**SINGLE 3-INPUT POSITIVE-AND GATE

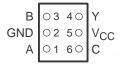

SCES487B - SEPTEMBER 2003 - REVISED FEBRUARY 2004

- Available in the Texas Instruments
   NanoStar™ and NanoFree™ Packages
- Supports 5-V V<sub>CC</sub> Operation
- Inputs Accept Voltages to 5.5 V
- Max t<sub>pd</sub> of 4.1 ns at 3.3 V
- Low Power Consumption, 10-μA Max I<sub>CC</sub>
- ±24-mA Output Drive at 3.3 V
- I<sub>off</sub> Supports Partial-Power-Down Mode Operation
- Latch-Up Performance Exceeds 100 mA Per JESD 78, Class II
- ESD Protection Exceeds JESD 22
  - 2000-V Human-Body Model (A114-A)
  - 200-V Machine Model (A115-A)
  - 1000-V Charged-Device Model (C101)

DBV OR DCK PACKAGE (TOP VIEW)

YEP OR YZP PACKAGE (BOTTOM VIEW)

#### description/ordering information

The SN74LVC1G11 performs the Boolean function  $Y = A \bullet B \bullet C$  or  $Y = \overline{A} + \overline{B} + \overline{C}$  in positive logic.

NanoStar<sup>™</sup> and NanoFree<sup>™</sup> package technology is a major breakthrough in IC packaging concepts, using the die as the package.

This device is fully specified for partial-power-down applications using I<sub>off</sub>. The I<sub>off</sub> circuitry disables the outputs, preventing damaging current backflow through the device when it is powered down.

#### ORDERING INFORMATION

TA	PACKAGE†	PACKAGE <sup>†</sup>		
	NanoStar™ – WCSP (DSBGA) 0.23-mm Large Bump – YEP	3	SN74LVC1G11YEPR	00
-40°C to 85°C	NanoFree™ – WCSP (DSBGA) 0. <mark>23-m</mark> m Large Bump – YZP (Pb-free)	Tape and reel	SN74LVC1G11YZPR	C3_
LEE IT	SOT (SOT-23) – DBV	Tape and reel	SN74LVC1G11DBVR	C11_
THE	SOT (SC-70) - DCK	Tape and reel	SN74LVC1G11DCKR	C3_

<sup>†</sup> Package drawings, standard packing quantities, thermal data, symbolization, and PCB design guidelines are available at www.ti.com/sc/package.

Please be aware that an important notice concerning availability, standard warranty, and use in critical applications of Texas Instruments semiconductor products and disclaimers thereto appears at the end of this data sheet.

DBV/DCK: The actual top-side marking has one additional character that designates the assembly/test site.

YEP/YZP: The actual top-side marking has three preceding characters to denote year, month, and sequence code, and one following character to designate the assembly/test site. Pin 1 identifier indicates solder-bump composition (1 = SnPb, • = Pb-free).

SCES487B - SEPTEMBER 2003 - REVISED FEBRUARY 2004

#### **FUNCTION TABLE**

	INPUTS		OUTPUT
Α	В	С	Y
Н	Н	Н	Н
L	X	Χ	L
Х	L	Χ	L
Х	X	L	L

#### logic diagram (positive logic)

#### absolute maximum ratings over operating free-air temperature range (unless otherwise noted)†

Supply voltage range, $V_{CC}$
(see Note 1)
Voltage range applied to any output in the high or low state, VO
(see Notes 1 and 2)
Input clamp current, I <sub>IK</sub> (V <sub>I</sub> < 0)–50 mA
Output clamp current, I <sub>OK</sub> (V <sub>O</sub> < 0)
Continuous output current, IO ±50 mA
Continuous current through V <sub>CC</sub> or GND±100 mA
Package thermal impedance, θ <sub>JA</sub> (see Note 3): DBV package
DCK package
YEP/YZP package
Storage temperature range, T <sub>stg</sub> –65°C to 150°C

<sup>†</sup> Stresses beyond those listed under "absolute maximum ratings" may cause permanent damage to the device. These are stress ratings only, and functional operation of the device at these or any other conditions beyond those indicated under "recommended operating conditions" is not implied. Exposure to absolute-maximum-rated conditions for extended periods may affect device reliability.

- NOTES: 1. The input negative-voltage and output voltage ratings may be exceeded if the input and output current ratings are observed.
  - 2. The value of V<sub>CC</sub> is provided in the recommended operating conditions table.
  - 3. The package thermal impedance is calculated in accordance with JESD 51-7.

#### **IMPORTANT NOTICE**

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice. Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its hardware products to the specifications applicable at the time of sale in accordance with TI's standard warranty. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

TI assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using TI components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any TI patent right, copyright, mask work right, or other TI intellectual property right relating to any combination, machine, or process in which TI products or services are used. Information published by TI regarding third-party products or services does not constitute a license from TI to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. Reproduction of this information with alteration is an unfair and deceptive business practice. TI is not responsible or liable for such altered documentation.

Resale of TI products or services with statements different from or beyond the parameters stated by TI for that product or service voids all express and any implied warranties for the associated TI product or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.
