## PRODUCT SUMMARY

### Keyfob Evaluation System

Description	Kit Includes								
<p>The new EVAL-***-KEY5 evaluation system is an ideal starting point to evaluate the performance of Linx's popular <a href="#">keyfob transmitters</a> and begin integration with your own product. The FCC pre-certified keyfobs allow OEM's to rapidly incorporate wireless functions in a wide variety of remote control and command applications. The kit contains two keyfob transmitters, along with a pre-assembled demonstration / development board based on the KH-series receiver / decoder module. The development board features audible and visual indication for range testing and a small prototyping area with signal breakout header for the user's circuit.</p>	<p><b>2 Five-Button Keyfobs</b>  <b>1 Assembled RX Eval. board</b>  <b>2 KH Receiver Modules*</b>  <b>1 CW-Series Antenna</b>  <b>1 Ea. Keyfob and KH Rx Manuals</b>  <b>Part 2 + Part 15 Guidelines</b>  <b>Free Technical Support</b></p> <p><small>* one mounted on demo PCB</small></p>
