FDS6375

Single P-Channel 2.5V Specified PowerTrench™ MOSFET

General Description

This P-Channel 2.5V specified MOSFET is produced using Fairchild Semiconductor's advanced PowerTrench process that has been especially tailored to minimize on-state resistance and yet maintain superior switching performance.

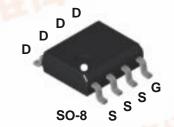

These devices are well suited for low voltage and battery powered applications where low in-line power loss and fast switching are required.

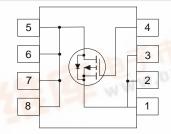

Applications

- DC/DC converter
- Load switch
- Battery Protection

Features

- -8.0 A, -20 V. $R_{DS(on)} = 0.024~\Omega~$ @ $V_{GS} = -4.5~V$ $R_{DS(on)} = 0.032~\Omega~$ @ $V_{GS} = -2.5~V.$
- Low gate charge (23nC typical).
- Fast switching speed.
- High performance trench technology for extremely low R_{DS(ON)}.
- High power and current handling capability.

Absolute Maximum Ratings T_A = 25°C unless otherwise noted

| Symbol | Parameter | Ratings | Units | |
|------------------|--|-------------|------------|------|
| V _{DSS} | Drain-Source Voltage | | -20 | V |
| V _{GSS} | Gate-Source Voltage | | <u>+</u> 8 | V |
| I _D | Drain Current - Continuous | (Note 1a) | -8.0 | Α |
| | - Pulsed | | -50 | Lags |
| P _D | Power Dissipation for Single Operation | (Note 1a) | 2.5 | W |
| | | (Note 1b) | 1.2 | |
| | - | (Note 1c) | 1 | 1 |
| TJ, Tsta | Operating and Storage Junction Temperatu | -55 to +150 | °C | |

Notes

1: R_{BJA} is the sum of the junction-to-case and case-to-ambient resistance where the case thermal reference is defined as the solder mounting surface of the drain pins. R_{BJC} is guaranteed by design while R_{BJA} is determined by the user's board design.

SO-8 Tape and Reel Data and Package Dimensions

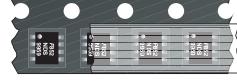

Packaging Description:

SOIC-8 parts are shipped in tape. The carrier tape is made from a dissipative (carbon filled) polycarbonate resin. The cover tape is a multilayer film (Heat Activated Adhesive in nature) primarily composed of polyester film, adhesive layer, sealant, and anti-static sprayed agent. These reeled parts in standard option are shipped with 2,500 units per 13° or 330m diameter reel. The reels are dark blue in color and is made of polystyrene plastic (anti-static coated). Other option comes in 500 units per 7° or 177cm diameter reel. This and some other options are further described in the Packaging Information table.

These full reels are individually barcode labeled and placed inside a standard intermediate box (illustrated in figure 1.0) made of recyclable corrugated brown paper. One box contains two reels maximum. And these boxes are placed inside a barcode labeled shipping box which comes in different sizes depending on the number of parts

LIFE SUPPORT POLICY

FAIRCHILD'S PRODUCTS ARE NOT AUTHORIZED FOR USE AS CRITICAL COMPONENTS IN LIFE SUPPORT DEVICES OR SYSTEMS WITHOUT THE EXPRESS WRITTEN APPROVAL OF FAIRCHILD SEMICONDUCTOR CORPORATION. As used herein:

- 1. Life support devices or systems are devices or systems which, (a) are intended for surgical implant into the body, or (b) support or sustain life, or (c) whose failure to perform when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in significant injury to the user.
- 2. A critical component is any component of a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness.

PRODUCT STATUS DEFINITIONS

Definition of Terms

| Datasheet Identification | Product Status | Definition |
|--------------------------|---------------------------|---|
| Advance Information | Formative or In Design | This datasheet contains the design specifications for product development. Specifications may change in any manner without notice. |
| Preliminary | First Production | This datasheet contains preliminary data, and supplementary data will be published at a later date. Fairchild Semiconductor reserves the right to make changes at any time without notice in order to improve design. |
| No Identification Needed | Full Production | This datasheet contains final specifications. Fairchild Semiconductor reserves the right to make changes at any time without notice in order to improve design. |
| Obsolete | Not In Production | This datasheet contains specifications on a product that has been discontinued by Fairchild semiconductor. The datasheet is printed for reference information only. |
