

TOSHIBA Bipolar Linear Integrated Circuit Silicon Monolithic

TA4018F

VHF Gain Control Amplifier Application

Features

- High gain: $|S_{21}|^2 = 11\text{dB}$ (@45 MHz, at Maximum gain)
- Gain control range: $GR = 37\text{dB}$ (@45 MHz)
- Low distortion: $IM_3 = 42\text{dB}$ (@45 MHz, at Maximum gain)
- Operating supply voltage: $V_{CC} = 4.75\text{ V} \sim 5.25\text{ V}$

Weight: 0.02g (typ.)

Maximum Ratings (Ta = 25°C)

Characteristics	Symbol	Rating	Unit
Supply voltage	V_{CC}	5.5	V
Total power dissipation	P_D (Note 1)	550	mW
Operating temperature	T_{opr}	-40~85	°C
Storage temperature	T_{stg}	-55~150	°C

Note 1: When mounted on the glass epoxy of $2.5\text{ cm}^2 \times 0.4\text{ t}$

Pin Assignment

Electrical Characteristics (Ta = 25°C, VCC = 5 V, Zg = Zl = 50 Ω)

Characteristics	Symbol	Test Circuit	Test Condition	Min	Typ.	Max	Unit
Circuit current	I _{CC}	Fig1	VGCA = 3 V, Non carrier	21	28	35	mA
Input return loss	S ₁₁ ²		VGCA = 3 V, f = 45 MHz	—	-0.3	—	dB
Insertion gain (1)	S ₂₁ ² (1)		VGCA = 3 V, f = 45 MHz	8	11	—	dB
Insertion gain (2)	S ₂₁ ² (2)		VGCA = 1 V, f = 45 MHz	-36	-26	-16	dB
Isolation	S ₁₂ ²		VGCA = 3 V, f = 45 MHz	—	-50	—	dB
Output return loss	S ₂₂ ²		VGCA = 3 V, f = 45 MHz	—	-5	—	dB
Gain control range	GR		S ₂₁ ² (2)- S ₂₁ ² (1)	24	37	—	dB
Noise figure	NF		VGCA = 5 V, f = 45 MHz	—	11.5	15	dB
3 rd order Inter Modulation	IM3		VGCA = 3 V, f ₁ = 45 MHz, f ₂ = 44 MHz Pin = -20dBmW	32	42	—	dB

CAUTION: This device electrostatic sensitivity. Please handle with caution.

Notice

The circuits and measurements contained in this document are given only in the context of as examples of applications for these products.

Moreover, these example application circuits are not intended for mass production, since the high-frequency characteristics (the AC characteristics) of these devices will be affected by the external components which the customer uses, by the design of the circuit and by various other conditions.

It is the responsibility of the customer to design external circuits which correctly implement the intended application, and to check the characteristics of the design.

TOSHIBA assume no responsibility for the integrity of customer circuit designs or applications.

V_{GC}=0.5V
V_{CC}=5V

V_{GC}=3V
V_{CC}=5V

V_{GC}=5V
V_{CC}=5V

Unit : mm

Weight: 0.02g (typ.)

RESTRICTIONS ON PRODUCT USE

000707EBA

- TOSHIBA is continually working to improve the quality and reliability of its products. Nevertheless, semiconductor devices in general can malfunction or fail due to their inherent electrical sensitivity and vulnerability to physical stress. It is the responsibility of the buyer, when utilizing TOSHIBA products, to comply with the standards of safety in making a safe design for the entire system, and to avoid situations in which a malfunction or failure of such TOSHIBA products could cause loss of human life, bodily injury or damage to property.
In developing your designs, please ensure that TOSHIBA products are used within specified operating ranges as set forth in the most recent TOSHIBA products specifications. Also, please keep in mind the precautions and conditions set forth in the "Handling Guide for Semiconductor Devices," or "TOSHIBA Semiconductor Reliability Handbook" etc..
- The TOSHIBA products listed in this document are intended for usage in general electronics applications (computer, personal equipment, office equipment, measuring equipment, industrial robotics, domestic appliances, etc.). These TOSHIBA products are neither intended nor warranted for usage in equipment that requires extraordinarily high quality and/or reliability or a malfunction or failure of which may cause loss of human life or bodily injury ("Unintended Usage"). Unintended Usage include atomic energy control instruments, airplane or spaceship instruments, transportation instruments, traffic signal instruments, combustion control instruments, medical instruments, all types of safety devices, etc.. Unintended Usage of TOSHIBA products listed in this document shall be made at the customer's own risk.
- The products described in this document are subject to the foreign exchange and foreign trade laws.
- The information contained herein is presented only as a guide for the applications of our products. No responsibility is assumed by TOSHIBA CORPORATION for any infringements of intellectual property or other rights of the third parties which may result from its use. No license is granted by implication or otherwise under any intellectual property or other rights of TOSHIBA CORPORATION or others.
- The information contained herein is subject to change without notice.
