

Ty-Rap® / Ty-Fast® Cable Tying System

Installers Know and Trust Fastening Products from Thomas & Betts

Wire bundling is an integral part of modern electrical and electronic installations. To finish your harnessing and bundling project as reliably and economically as possible, choose genuine Ty-Rap® and Ty-Fast® cable ties. These fastening systems include a full range of cable ties, identification ties, clamps, bases, harnessing aids and installing tools. Using T&B fastening systems for all wiring jobs, large and small, will speed and improve the reliability of harnessing and wire bundling while saving you money.

Harnessing

- Harness Board pre-wiring prior to installation.
- Large OEMs - Automotive, Aerospace, Computers, Electronics, Copiers, Appliances and other Durable Goods.

T&B fastening systems for large volume cable tying combine high-speed ergonomically designed automatic and semi-automatic tools, along with a wide selection of ties and

harnessing aids to meet your application requirements. Accessories include various harnessing aids, retainers, supports, posts, pins and guides that allow the wire to be quickly routed with or without the use of nails.

Point-to-point and Long Distance Wiring

- Bundling & fastening cables between equipment.
- Panel & Machine Tool Builders.
- Industrial & Commercial Applications, Refineries, Office Buildings.

Installers prefer the ease of use and exceptional durability of genuine Ty-Rap® cable ties. Engineered for labor savings and high performance, Ty-Rap® cable ties are commonly used in a variety of applications. Standoffs, bulkhead mounting bases, adhesive mounting bases and a wide variety of clamping devices will meet or exceed any requirements. Weatherable and special material Ty-Rap® cable ties are exceptionally suited for years of service in extreme environments.

Other Applications

- HVAC
- Recreational
- Telecom & Utility
- Packaging

Ty-Rap® and Ty-Fast® cable ties are remarkably well suited for a variety of other non-electrical applications. Ty-Rap® cable ties exceed UL requirements for smoke developed and heat release for use in air handling spaces. Ty-Rap® cable ties meet international standards such as CSA and CE as well as UL, , Belcor, ADC and military specifications in North America. T&B also offers a complete stainless steel and Deltec cable fastening system for demanding and weather-resistant applications. Choose genuine Ty-Rap® cable ties for the rugged "Grip of Steel" or economical Ty-Fast® cable ties for lighter-duty service.

Choose Genuine Ty-Rap® and Ty-Fast® Cable Ties from Thomas & Betts

When you choose a cable tie from T&B, you can count on quality, performance and innovation to make your work easier. Depending on your application, choose genuine Ty-Rap® Cable ties or Ty-Fast® Cable Ties, along with our wide assortment of quality accessories and installing tools to make installation hassle-free.

Ty-Rap® / Ty-Fast®

Cable Tying System

Genuine Ty-Rap® Cable Ties provide industrial strength for the most demanding work.

T&B's Ty-Rap® Cable Ties feature these important advantages:

- **Stainless steel locking device in the head.** Ty-Rap® cable ties are infinitely adjustable within their bundle range. You get the right bundle tightness every time. The 316 stainless steel locking device in the nylon head secures the tie with the longer-lasting, corrosion-resistant "grip of steel," exceeding the minimum pullout strength requirements specified in MIL-S-23190.
- **Rounded head** – Reduces snags, makes pulling bundles through tight spaces easier.
- **Smooth body design with smooth rounded edges and uniform cross sections.** The ties have no notches, thereby reducing stress areas that can weaken the tie and

cause brittle breakage especially in cold and dry conditions. Smooth edges won't snag while pulling through bulkheads. There are no sharp edges to be the source of installation injuries or to damage the wire insulation. The smooth surface design also adds an attractive finish to your wiring project.

- **Mechanic's Grip** - No-slip tail for easy grasping and tensioning.
- **Ribbed and stipped inner body** – Prevents slipping on the bundle.
- **Turned-up Tail** - Orients tail to head for easy assembly, easier to pick up on flat surface.

T&B also offers all-stainless steel, hook and loop and specialty material Ty-Rap® cable ties in a large variety of styles, colors and sizes for all your fastening applications.

Ty-Fast® Cable Ties fit the needs of OEMs from start to finish.

T&B's Ty-Fast® Cable Ties feature these important advantages:

- **Smooth Edges** - Designed to prevent cable insulation damage.
- **Integrally formed nylon pawl** – Combines low insertion force and high locking strength.
- **Two-sided Finger Grip Design** – Helps the installer grasp and pull the tie snug.
- **"Sure-grip" Tab in center of the Tail** – Keeps the tail from popping out while being threaded and holds it securely for final tightening.

- **Turned-up Tail** - Orients tail to head for quick assembly, easier to pick up on flat surface.
- **Quick, Easy Pull-Through** – Reduces operator fatigue, increases productivity.
- **Competitively Priced** – Ideal for high volume jobs, lowers installation costs for OEMs.

T&B also offers a low-profile contoured version of Ty-Fast® cable ties, along with a fully automated reel-fed fastening system.

Cable Fastening Accessories

Choose from one of the largest assortments of mounting bases, clips and clamps, spacers, lashing straps, harness board accessories, braided wire sleeve, and accessories for heavy-duty lashing. Use Thomas & Betts cable fastening accessories for the finishing touch on your next wiring project.

Tools

Ty-Rap® and Ty-Fast® installing tools finish the installation of the cable tie. Ties are cinched to the proper tension and the excess tail is cut off precisely flush with the head, leaving no sharp corners or ragged edges. Ty-Rap® and Ty-Fast® installing tools have narrow noses and slim profiles for work in tight spaces or between harness board nails. The operation is quick, reliable and cost effective.

ULTRAVIOLET
RESISTANT

The MX series cable ties are recommended for outdoor use. The addition of carbon black provides good ultraviolet resistance and prolongs the useful life of the cable tie.

How to Order Color-Coded Ty-Rap® Ties and Accessories

Color	Suffix No.	Color	Suffix No.
Black (outdoor)	X	Green	5
Brown	1	Blue	6
Red	2	Purple	7
Orange	3	Gray	8
Yellow	4	White	9

Natural nylon is standard. For colored Ty-Rap® ties, add the following suffix numbers to catalog numbers. Example: TY25M-2 would be red TY25M. (Consult customer service for ordering information.)
