

Type: CSM-5

Product Description

- 5.8 × 5.1mm Max.(L × W), 4.2mm Max. Height.
- Inductance: 5 μH Max.
- Operating frequency: 200MHz Max.
- In addition to the reference versions of parameters shown here, custom designs are available to meet your exact requirements.

Feature

- Unshielded type with plastic molding case.
- RoHS Compliance

Dimensions (mm)

Connection (Bottom View)

“S” is winding start.

- * Dimension does not include solder used on coil.
- * Pin pitch should be measured at the root of terminal.
- * Dimensions without tolerance are approx.

Specification (Part No. 5251-T031)

Item	(3-1)	Measuring frequency (MHz)
Tuning capacitance	60.8pF ± 20% Variable	100
Unloaded Q	35 Min.	100
