Sound Blaster Live! Platinum 5.1

*Reach for Premium Audio Entertainment with
Dolby® Digital 5.1 Technology*

Introduction

- Experience crystal-clear Dolby® Digital 5.1 surround sound in music, movies and games
- Take advantage of the digital connection to Cambridge SoundWorks DeskTop Theater™ 5.1 DTT3500 Digital speakers and the analog connection to Dolby Digital-ready home theater systems
- Tap into the most powerful integrated effects engine with EAX™ for true-to-life audio environments and more
- Expand your interests with the included Dolby Digital decoder, MP3 and WMA digital audio encoder, music composition software, and four full EAX-enhanced game titles

Sound Blaster Live! Platinum 5.1 provides the best Dolby Digital 5.1 audio entertainment on your PC for movies, music, and games. You can enjoy engulfing 5.1 surround sound by connecting digital multi-channel speakers or an analog Dolby Digital-ready home stereo system to your Sound Blaster Live! Platinum 5.1 sound card... so there's no need to purchase a Dolby Digital decoder. With the front panel connectors of the innovative Live!Drive IR, you can easily attach MIDI instruments, MiniDiscs, and other digital audio devices, headphones and much more. Also control your audio entertainment with the easy navigation and convenience of the included wireless remote. And, because the Sound Blaster Live! Platinum 5.1 is powered by the EMU10K1 audio processor, you will experience real-time audio and effects for true-to-life action in every audio application.

When it comes to quality, power and fun on your PC, the Sound Blaster Live! Platinum 5.1 delivers! It's the most advanced 5.1 audio solution for enjoying incredible sound in movies, composing music, listening to crystal-clear music, creating and organizing MP3 files, and playing today's hottest games.

Features and Performance

Experience full 5.1 surround sound in either digital or analog output! Sound Blaster Live! Platinum 5.1 provides surround sound on your PC with built in support for two-, four-, or six- speaker configurations. You'll get superior Dolby Digital 5.1 sound quality by connecting a Cambridge SoundWorks DeskTop Theater DTT3500 Digital speaker solution to the digital-out connector on Sound Blaster Live! Platinum 5.1. Or connect the Sound Blaster Live! Platinum 5.1 to analog devices such as the Cambridge SoundWorks DeskTop Theater DTT2200 speaker solution or any Dolby Digital-ready home stereo system to experience crystal-clear audio.

Live!Drive IR with Wireless Remote

The innovative Live!Drive IR allows you to simultaneously connect both digital and analog devices such as MIDI instruments, MiniDisc, external digital audio devices, and headphones — all from the front of your PC instead of the back. The Sound Blaster Live! Platinum 5.1 also comes with an easy to use wireless remote control for simple navigation of audio playback and entertainment. This hardware and software solution allows you to convert your PC into an entertainment system ideal for a home theater environment.

Quality Digital Signal Processor

The revolutionary EMU10K1 Digital Signal Processor gives you all the power you need to create crystal-clear audio files. Because processing and playback remains entirely digital, your files maintain the highest level of audio quality with settings optimized for headphones, two, four, or 5.1 speakers and home stereo systems.

The Sound Blaster Live! Platinum 5.1 provides hardware acceleration for EAX, Microsoft DirectSound® 3D, and DirectSound® gaming and it produces up to 32 3D hardware-accelerated channels, up to 64 hardware-accelerated channels, or up to 1024 voices. With support for real time digital effects like reverb, chorus, echo, flanger, pitch shifting, vocal morpher, ring modulator, auto-wah or distortion, the power provides an overwhelming audio experience.

EAX

EAX is a collection of powerful, innovative audio technologies. Developed by Creative's world class audio scientists and built into groundbreaking Personal Digital Entertainment (PDE) Solutions, EAX is changing the way audio is experienced.

EAX adds interactive, high-definition audio to the Sound Blaster Live! Platinum 5.1 with 3D audio technology and 5.1 analog and digital sound, to enjoy a premium audio experience in music, movies, and games. Customize your favorite MP3 songs with "Concert hall", "Jazz club" or other environment effects to add an extra dimension to
