

## **SAW Components**

SAW Tx Filter WCDMA Band I

Series/Type: B9414

Ordering code:

Date: August 02, 2006

Version: 1.0

<sup>©</sup> EPCOS AG 2006. Reproduction, publication and dissemination of this data sheet, enclosures hereto and the information contained therein without EPCOS' prior express consent is prohibited.

# SAW Components B9414 SAW Filter 1950.0 MHz

#### **Preliminary Data**

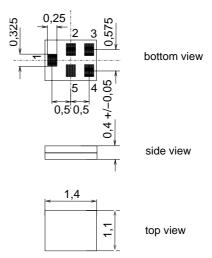

#### **Application**

- Low-loss RF filter for mobile telephone WCDMA systems, transmit path (TX)
- Impedance transform from 50  $\Omega$  to 50  $\Omega$
- Unbalanced to unbalanced operation
- Very low insertion attenuation
- Low amplitude ripple
- Very low Error Vector Magnitude (EVM)
- High Rx-suppression
- Usable passband 60 MHz

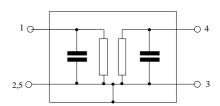

#### **Features**

- Package size 1.4 x1.1 x 0.4 mm<sup>3</sup>
- Package code QCS5I
- RoHS compatible
- Approx. weight 0.003 g
- Package for Surface Mount Technology (SMT)
- Ni, gold-plated terminals
- Electrostatic Sensitive Device (ESD)

### Pin configuration

- 1 Input, unbalanced
- 4 Output, unbalanced
- 2,3,5 To be grounded

**SAW Components** B9414

**SAW Filter** 1950.0 MHz

**Preliminary Data** 

 $\equiv$ MD

**Characteristics** 

Operating temperature range:  $T = -20 \,^{\circ}\text{C} \text{ to } +85 \,^{\circ}\text{C}$ Terminating source impedance:  $Z_S = 50 \Omega$  (unbalanced) Terminating load impedance:  $50 \Omega$  (unbalanced)

	min.	typ. @ 25 °C	max.	
Center frequency f <sub>C</sub>	; —	1950.0	_	MHz
Maximum insertion attenuation α <sub>1</sub> 920.0 1980.0 MHz	max —	2.5	3.2 <sup>1)</sup>	dB
Amplitude ripple (p-p)	α			
1920.0 1980.0 MHz	_	1.1	1.82)	dB
Input VSWR				
1920.0 1980.0 MHz	_	1.8	2.2	
Output VSWR				
1920.0 1980.0 MHz	_	1.8	2.2	
Attenuation $\alpha$				
0.0 960.0 MHz	27	34	_	dB
960.0 1575.0 MHz	25	35	_	dB
1575.0 1576.0 MHz	32	35	_	dB
1576.0 1730.0 MHz	30	35	_	dB
1730.0 1880.0 MHz	30	38	_	dB
2025.0 2050.0 MHz	35	54	_	dB
2110.0 2170.0 MHz	35	38	_	dB
2200.0 3100.0 MHz	33	37	_	dB
3100.0 3960.0 MHz	30	42	_	dB
3960.0 6000.0 MHz	20	34	_	dB

<sup>1)</sup> ILmax max. 3.0dB at 25°C

EVM typ. < 1.3% at 25°C, typ. < 2.2% over temperature

 $<sup>^{2)}</sup>$  AR max. 1.6dB at  $25^{\circ}\text{C}$

RoHS compatible	defined as compatible with the following documents:  "DIRECTIVE 2002/95/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 January 2003 on the restriction of the use of certain hazardous substances in electrical and electronic equipment. 2005/618/EC from April 18th, 2005, amending Directive 2002/95/EC of the European Parliament and of the Council for the purposes of establishing the maximum concentration values for certain hazardous substances in electrical and electronic equipment."
Moldability	Before using in overmolding environment, please contact your EPCOS sales office.

For further information please contact your local EPCOS sales office or visit our webpage at www.epcos.com.

For questions on technology, prices and delivery please contact the Sales Offices of EPCOS AG or the international Representatives.

Due to technical requirements components may contain dangerous substances. For information on the type in question please also contact one of our Sales Offices.

#### Important notes

The following applies to all products named in this publication:

- 1. Some parts of this publication contain statements about the suitability of our products for certain areas of application. These statements are based on our knowledge of typical requirements that are often placed on our products in the areas of application concerned. We nevertheless expressly point out that such statements cannot be regarded as binding statements about the suitability of our products for a particular customer application. As a rule, EPCOS is either unfamiliar with individual customer applications or less familiar with them than the customers themselves. For these reasons, it is always ultimately incumbent on the customer to check and decide whether an EPCOS product with the properties described in the product specification is suitable for use in a particular customer application.
- 2. We also point out that in individual cases, a malfunction of passive electronic components or failure before the end of their usual service life cannot be completely ruled out in the current state of the art, even if they are operated as specified. In customer applications requiring a very high level of operational safety and especially in customer applications in which the malfunction or failure of a passive electronic component could endanger human life or health (e.g. in accident prevention or life-saving systems), it must therefore be ensured by means of suitable design of the customer application or other action taken by the customer (e.g. installation of protective circuitry or redundancy) that no injury or damage is sustained by third parties in the event of malfunction or failure of a passive electronic component.
- 3. The warnings, cautions and product-specific notes must be observed.
- 4. In order to satisfy certain technical requirements, some of the products described in this publication may contain substances subject to restrictions in certain jurisdictions (e.g. because they are classed as "hazardous"). Useful information on this will be found in our Material Data Sheets on the Internet (www.epcos.com/material). Should you have any more detailed questions, please contact our sales offices.
- 5. We constantly strive to improve our products. Consequently, the products described in this publication may change from time to time. The same is true of the corresponding product specifications. Please check therefore to what extent product descriptions and specifications contained in this publication are still applicable before or when you place an order. We also reserve the right to discontinue production and delivery of products. Consequently, we cannot guarantee that all products named in this publication will always be available.
- Unless otherwise agreed in individual contracts, all orders are subject to the current version of the "General Terms of Delivery for Products and Services in the Electrical Industry" published by the German Electrical and Electronics Industry Association (ZVEI).
- 7. The trade names EPCOS, CeraDiode, CSSP, PhaseCap, PhaseMod, SIFI, SIKOREL, Silver-Cap, SIMID, SIOV, SIP5D, SIP5K, TOPcap, UltraCap, WindCap are trademarks registered or pending in Europe and in other countries. Further information will be found on the Internet at www.epcos.com/trademarks.
