Dust seal and sealing plug

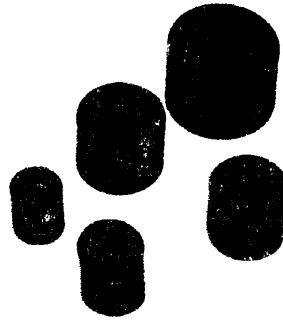

SKINTOP® DIX-AS-I

This special sealing for AS-I cables is a further modul in our SKINTOP® range. Instead of the integrated sealing of PG 11 SKINTOP® ST and SKINTOP® MS you can use this special AS-I sealing.

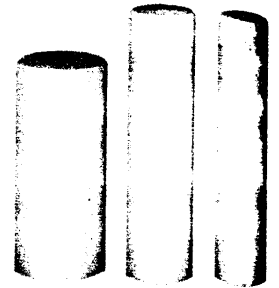

SKINTOP® SD Dust seal

For all assembly work on instruments, machines and assemblies. Where the cable connection is made later, we recommend our SKINTOP® screw-type cable glands with dust seal. This prevents dust, dirt and foreign bodies from penetrating inside the housing. Fixing is simply itself: nothing to take apart - just push the cable through.

SKINTOP® DV Sealing plug

For all assembly work in which the cable connection is made later and when the inside of the housing must also be protected against moisture, a SKINTOP® Cable Gland together with sealing plug should be used.

SKINTOP® DIX-DV

For not filled holes of the SKINTOP® DIX inserts, to secure the protection class.

Technical Data

Material:
 DIX AS-I: Neoprene
 SD: PE-Schaum
 DV: Neopren
 DIX-DV: Polyamid

Colour: black
 DIX-DV: nature
