## TAPE Attachment Method

Part Number: 374424B00035

(Vis Number: 037803)

**This part is in stock and available for immediate delivery:**

BGA Surface	Tape Type	Heat Sink Finish	Part Class
Plastic	T411	Black Anodize	A

### Features and Benefits

- Configurations are available for a wide range of BGA package sizes
- Tape mounted versions eliminate the need for mounting holes in the PC Board
- These Heat Sinks can be used with either plastic or metal/ceramic BGA Packages depending on tape used
- These Heat Sinks are compatible with Ther-a-grip tapes

Width	Length	Height	Fin Thickness Across Width	Fin Thickness Across Length	Base Thickness	# of fins across width	# of fins across length
27mm	27mm	18mm	1.4mm	1.63mm	1.5mm	8	8

### Mechanical Outline Drawing

Unless otherwise shown, tolerances are  $\pm 0.38(\pm 0.015)$

## Thermal Performance

* $\theta_n$	** $\theta_f$
20.3	6.46

\*Natural convection thermal resistance is based on a 75 °C heat sink temperature rise.

\*\*Forced convection thermal resistance based on an entering 1.0 m/s (200 lfm) airflow.  
Due to various heat dissipation paths within a BGA device, please test the heat sink in your application.
