## PSIWIN

PsiWin makes your PC pocketable by making file transfers to and from a Series 3/3a as simple as drag'n'drop. Because PsiWin automatically converts files between all the most popular Windows® applications and your Series 3/3a, you can access documents from PC word processor, spreadsheet, database and organiser applications, and move them effortlessly to and from your Series 3/3a.

- Take and edit PC documents with you - everywhere.
- Create PC documents - anywhere, anytime.

- Add a Windows® version of the Series 3/3a Database to your PC.
- Print from a Series 3/3a using your PC's TrueType™ fonts (Series 3a only.)
- Back up all your Series 3/3a data safely and automatically by simply clicking on an icon.
- PsiWin comes complete with software and 3Link Serial cable. (Upgrade from Psion 3Link is available direct from Psion.)

# PSIWIN

## Makes your PC pocketable!

PsiWin converts files to and from Word for Windows 2.0 and 6.0, Works for Windows 3.0, WordPerfect 5.1, 5.2 and 6.0 for DOS and Windows, Ami Pro 3.0, RTF, Excel 4.0 and 5.0, Lotus 123 WK3 and WK1, Quattro Pro 5.0 for Windows, Act! 2.0, Lotus Organizer 1.0 and 1.1, Microsoft Schedule+ v1.0 (Windows 3.1/3.11) (PsiWin only converts 3a Agenda files), dBase III and IV and Foxpro, delimited text and the Windows Clipboard. (Conversions Plus Library, a product of Dataviz Inc.)

Requires a PC running Windows 3.1/3.11, Windows NT v3.5 or above, Windows 95, OS/2 v2.1 or above, at least a 386 processor, 4MB of RAM and 7MB of hard drive space, for use with a Psion Series 3 or 3a. TrueType™ printing requires a Series 3a.

Internal speaker for alarm calls and sounds

Telephone Auto-dialer

Powerful application-sensitive help key

# THE SERIES 3a A PLACE FOR EVERYTHING...

Life can be a heap. You probably keep a diary, address book, files (and piles) of personal information, and use the backs of old envelopes to make notes when out and about. And somehow, you still manage to miss the odd meeting, anniversary and birthday. The information you need is lost amongst the accumulated morass of paper, never where you want, when you want. Which is a pity, because there is an alternative ...

The Psion Series 3a. The most powerful, easiest to use handheld computer in the world, the Series 3a will work with you to make your life easier, more efficient, more relaxed. It helps you organise everything you do, and incorporates all the important applications found on desktop machines. The size of a glasses case, it slips easily into the pocket, to be with you all the time, ready for immediate use.

It offers months of use on just two AA batteries. It allows data to be printed out to most types of printer, and with PsiWin, to be copied to and from a PC.

In addition to the comprehensive built-in applications, two extra SSD drives allow you to add on an ever growing range of plug-in applications ranging from business to entertainment. Data can also be backed on to Solid State Disks which can be removed and kept in a safe place for securing of your data.

With 3Fax you can send faxes from anywhere a phone is handy, and the Series 3a can even be used for sending and receiving short messages wirelessly over GSM digital mobile phone networks.

Small wonder the Series 3a is the world's most popular palmtop - with more awards than any other! And whether you're into computers or not, you'll find it both easy and a joy to use. Icons, menus and on-screen Help, guide you through everything.

...AND EVERYTHING  
IN ITS PLACE

# DIARY? MORE LIKE A PERSONAL ASSISTANT

## Built-in application – Agenda

Life is full of appointments, meetings, projects, anniversaries, birthdays, social functions, reminder notes and lists of things to do. Which makes a diary – or even several diaries – an important part of your daily life. Forth is diaries don't judge you when you're late for an appointment. Or remind you that an anniversary is coming up. And year after year, you have to re-enter much of the information into new diaries.

With a Series 3a you need only enter things once; you can view entries in a variety of ways, and in each view choose how the information is presented to suit your own taste and requirements:

- As a 'page-a-day' diary with things 'To-Do' listed (and carried forward from the previous day);
- As a 'week-to-view' appointment diary;
- As a year planner with major events categorised for easy identification;
- As an anniversary manager;
- As a series of 'To-Do' lists;
- As a simple chronological list of all events and things 'To-Do'.

You can enter new information, or edit existing information in any of these views. And you can generate notes for any type of diary entry: memos for a meeting perhaps – and password protect them, if you wish. With a Pison Series 3a you can set up a number of 'to do' lists, and sort them by priority, date or how you wish. You can attach messages to individual items, keep track of completed items, and you can set an alarm to warn you on the minute and day a 'to-do' task requires attention.

You can print all or part of your diary – entries, notes, memos – and you can see how it will look, first using the Series 3a's 'print preview' capability.

You can even archive your diary to a PC. Altogether far more useful than any other diary.

Indeed, no other pocket diary in the world looks after your interests so well. But then, no other diary has the power of the Pison Series 3a.

All your appointments, anniversaries, projects, birthdays, social functions, reminder notes and lists of things to do are in priority so date order. Or you can manage the order yourself. Titled and dated items will appear in your day, and week views, if you wish. And you can add to or cross out completed tasks.

## WE GROW ON YOU IN A DIFFERENT WAY

1996 – 2049

查询"1601003910"供应商

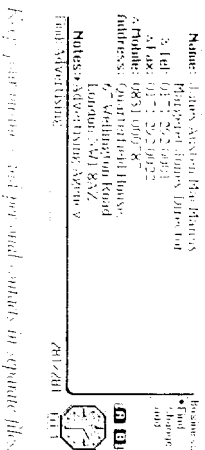

# NOTHING IS BEYOND YOUR REACH

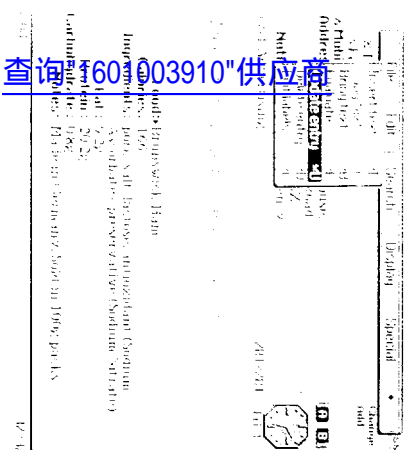

*With the built-in Database and Address Book*

Prion Series 3a's database system will allow you to store and instantly retrieve the phone numbers and addresses of business contacts, friends, relatives, telephone restaurants and theatres, important details about insurance policies, bank accounts, stocks and shares, inventory lists and records, timetables, diaries, club membership details, business notes and memos.

With so much material, it's not surprising that paper-based systems make it hard to instantly lay your hands on a vital piece of information. You can enter and store all your information quickly and easily on a Series 3a, either from its keyboard or from a desktop computer, and you can customise the database to search for the very information. Its built-in memory and expansion capabilities mean you can have as many different databases as you like.

Keep your notes, not just your contacts, in separate files

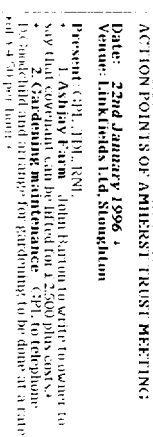

查询 603910"供应商

And with your Series 3a connected to a printer, you can get a copy of all or any selection of your records.

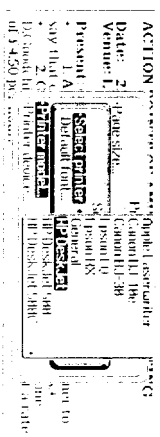

Which makes the Series 3a far more convenient and practical than any paper-based system.

# CREATE DOCUMENTS, LETTERS, MEMOS AND REPORTS...

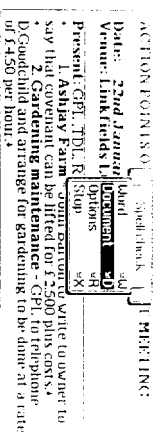

*With the built-in, fully-featured Word Processor*

Word processor supports different styles, fonts and emphases

Documents can be printed on most types of printer

Spell Checker

Although small, the Prion Series 3a is capable of far more than just storing notes, letters, reports, articles, documents - even a book - can be written and professionally formatted.

Its Word Processor provides a complete choice of emphases, alignments, styles and templates, and gives an outline and a full page preview prior to printing. The zoom feature allows text to be displayed in four different sizes, allowing you to show a full A4 page width. The 1MB and 2MB models also include a powerful Spell Checker and Thesaurus with 100,000 words, 600,000 synonyms and 50,000 definitions.

Documents can be saved in Microsoft Rich Text Format (RTF) - for exchange with desktop word processors while retaining your formatting - and the styles are compatible with Microsoft Word.

In short - a boon for anyone who needs to write and professionally format material whilst on the move. And of course, all sensitive documents can be password protected for total peace of mind.

...ANYWHERE

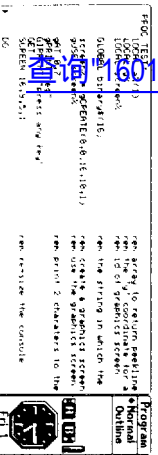

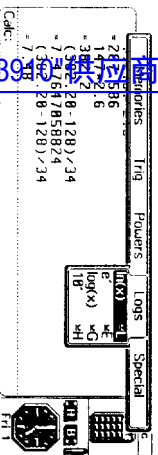

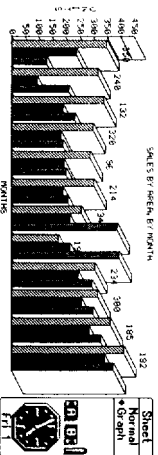

# SPREADSHEETS AS EASY AS PIE!

*Built-in applications – Spreadsheet / Calculator / OPL*

If you handle figures, budgets, financial projections and analyses, you'll find the Piston Series 3a Lotus 1-2-3 compatible spreadsheet indispensable. It has the powerful analytical tools and functions offered by desktop spreadsheets, plus a variety of graphic display options to help you visualise your figures – including 3D bar and pie charts.

You can download worksheets to and from desktop computers, copy them into a word processor document, print them landscape or portrait (a page preview shows you how it will look), and password protect sensitive files. And, like any good spreadsheet, you can also use it to prepare specialised databases.

	JAN	FEB	MAR	APR	MAY	JUNE	JULY	AUG
AREA 1	358	365	366	368	373	378	383	388
AREA 2	248	253	258	263	268	273	278	283
AREA 3	132	137	142	147	152	157	162	167
Currency	222	227	232	237	242	247	252	257
Cost of sales	218	223	228	233	238	243	248	253
AREA 1	134	139	144	149	154	159	164	169
AREA 2	54	59	64	69	74	79	84	89
AREA 3	53	58	63	68	73	78	83	88

You can set up different type styles to format your worksheet for clarity and zoom in and out for reduced or enlarged views.

2D and 3D Bar, Stack-bar, Pie charts, and Line and XY/Scatter graph options are available to give a quick graphic overview of your spreadsheet. Legends and annotations can be added, and charts saved as graphic files for transferring to a desktop computer.

## SCIENTIFIC CALCULATOR

Accurate to ten decimal places, with a full range of scientific functions, 10 nameable memories, a full-roll simulation to display previous calculations and a full range of numeric formats. It will also run functions created with the powerful built-in programming language, OPL.

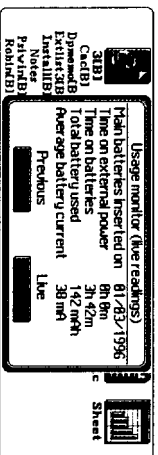

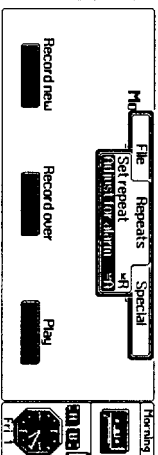

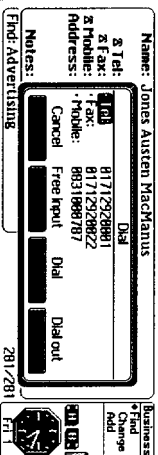

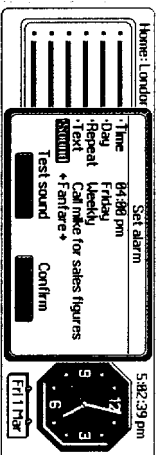

## POWERFUL PROGRAMMING LANGUAGE

enables the superior features of the Piston Series 3a to be programmed to provide additional functions, utilities and applications. Whether new to programming or a professional, you'll find its procedure-based, 'BASIC' like structure easy to use.

# THE WORLD'S MOST POWERFUL ORGANISER FUNCTIONS

*Built-in applications – Alarm / World / Dial / Record / Battery info.*

The Piston Series 3a is packed with a host of 'organiser' features. However, as you might expect from the people who developed the concept in the first place, you'll find them far more advanced and useful than any other electronic organiser on the market. *Check them out...*

**ALARM CALLS** – In addition to a 12 or 24-hour clock that caters for four different daylight saving zones, you get up to six customisable alarms with optional daily, weekly or weekly repeats and a 'snooze' feature. As the Series 3a allows you to record and create your own personal alarms, you can even wake up to the sound of a loved one.

**WORLD INFORMATION** – Want to know the time in Abidjan or Zurich? The World display gives the current time (taking time zones into account) in over 500 towns and cities round the world, together with distances, sunrise and sunset times, and the telephone dialling code from the 'home town' - which you can select for wherever you are. And you can add towns important to you.

## AUTOMATIC TELEPHONE DIALLING

The Piston Series 3a will dial telephone numbers from your address book automatically adding any additional international codes - wherever in the world you're dialling from. Simply hold your Series 3a over the telephone mouthpiece and press a button.

**SOUND BITE RECORDER** Use your Series 3a to record hurried messages and notes - and even bursts of music - for playback at anytime, or to use as a personalised 'alarm sound'.

**BATTERY CHECK** – The Series 3a even looks after itself, giving you ample warning when batteries are getting low (you'll get approximately two months of normal use from a couple of AA batteries).

# THE OFFICE IN YOUR POCKET

## Communication power

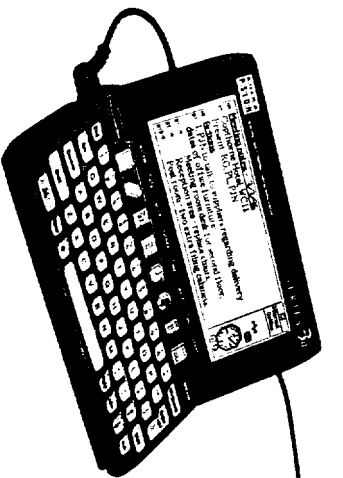

You can add fax, modem, email, printing, wireless short text messaging, and data sharing facilities to your Psion Series 3a, so that no matter where you go, you'll be able to keep in touch using the kind of communications capabilities you would expect in a fully equipped, high-tech office.

## PsiWin

With PsiWin, Psion's PC connecting package for the Series 3a, you'll be able to create, open and work on Windows™ PC files wherever you go, and back up all your data to a PC or floppy disks. It comprises a serial cable that plugs directly into the side of your Series 3a, and comprehensive PC-based Windows connectivity software.

**Incredibly easy to use.** Exchanging files between the Series 3a's built-in applications and today's popular Windows™ programs is simplicity itself: you just 'drag and drop' files on your PC for seamless file transfers. PsiWin will automatically convert the file formats for you, and is as easy to use as your familiar Windows™ File Manager, displaying the Series 3a disk drives as well as the PC drives.

**Build your Psion database on your PC.** PsiWin also includes a Windows™ version of the Series 3a database application. It enables you to enter data using your PC's large screen and full-sized keyboard, then transfer the information to your Psion Series 3a - and keep the same database on both your PC and Series 3a. The database also allows you to copy addresses into letters in your word processor for mail merges.

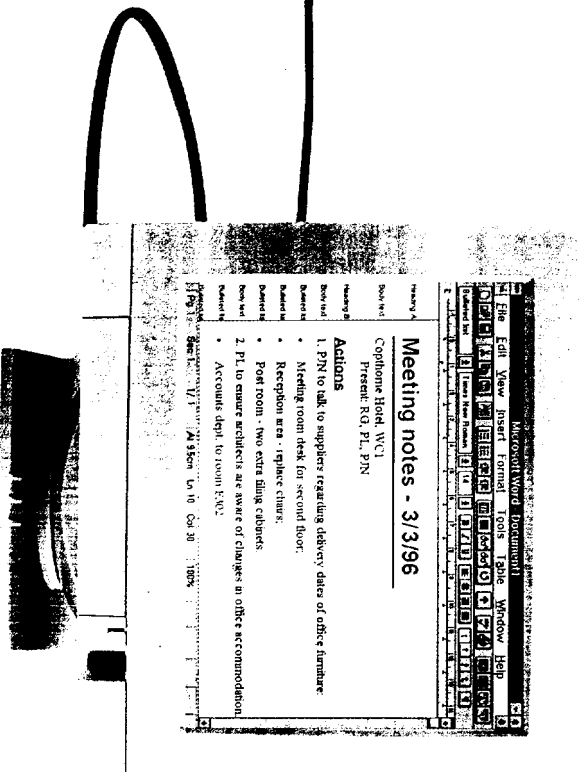

**PsiWin provides everything you need:**

- Take and edit PC documents with you - everywhere.
- Create PC documents - anywhere, anytime.
- Add a Windows™ version of the Series 3a Database to your PC.
- Print from a Series 3a using your PC's TrueType™ fonts (Series 3a only.)
- Back up all your Series 3a data safely and automatically by simply clicking on an icon.
- PsiWin comes complete with software and 3Link Serial cable.

*(The upgrade from Psion 3Link is available direct from Psion.)*

PsiWin converts files to and from Word for Windows 2.0 and 6.0, Works for Windows 3.0, WordPerfect 5.1, 5.2 and 6.0 for DOS and Windows, Ami Pro 3.0, RTF, Excel 4.0 and 5.0, Lotus 123 WK3 and WK1, Quattro Pro 5.0 for Windows, Act! 2.0, Lotus Organizer 1.0 and 1.1, Microsoft Scheduler+ v1.0 (Windows 3.1/3.11) (PsiWin only converts 3a Agenda files), DBase III and IV and Foxpro, delimited text and the Windows Clipboard. (Conventions Plus Library, a product of Dataviz Inc.)

[查询"1601003910"供应商](#)

# UNLIMITED MEMORY

## Solid State Disks

Add all the memory you need – instantly!

Pision Solid State Disks (SSDs) are the ultimate in data security. There are no fragile moving parts and they keep your valuable records far more secure than conventional floppy disks. Simply insert them into the slots of your Series 3a for more memory whenever you need it.

By freeing up Internal memory, SSDs allow your Series 3a to handle more data and perform even faster. Use them to safely back up all your important information – they'll withstand the extreme conditions that might destroy other types of storage media – and to exchange information with other Pision Series 3a models; exchange with your business partner or any other Series 3a owner. Simply copy your data – schedules, spreadsheets or your address book – onto an SSD and hand it to the person with whom you want to share information. There's no need for laborious re-entry or complicated exchange procedures.

### Choose the right SSD for your requirements

#### Flash SSDs – for maximum security.

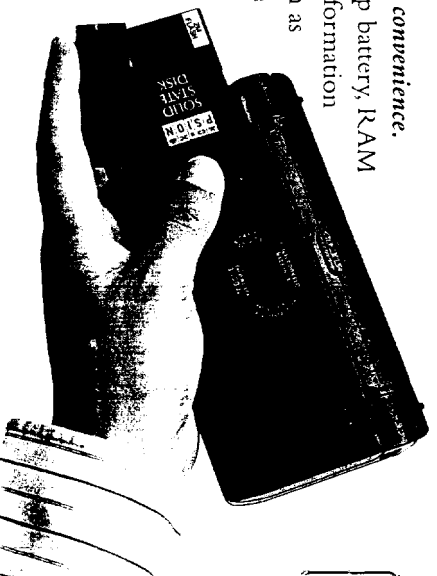

Flash SSDs require no battery to retain the data they store – and consequently provide assured data integrity and security. The data you store on them can be selectively deleted; the space is reclaimed when the SSD is reformatted – a simple, menu-controlled operation. Flash SSDs are ideally suited for storing important data which rarely changes.

Sizes: 128K, 256K, 512K, 1MB, 2MB, 4MB

#### RAM SSDs – for maximum convenience.

Powered by a lithium backup battery, RAM SSDs are ideal for storing information that frequently changes, such as a spreadsheet data. New data simply overwrites the data it replaces.

Sizes: 128K, 512K, 1MB

# EXCHANGE MAC FILES WITH YOUR SERIES 3a

## Communication power – MacLink

Use MacLink to connect your Series 3a to your Mac for file transfers. The Macintosh Link software runs on Mac OS version 6.07 to 7.5, and enables you to back up your data to an Apple Macintosh, as well as enabling you to pocket Apple Macintosh files for working on, wherever you go.

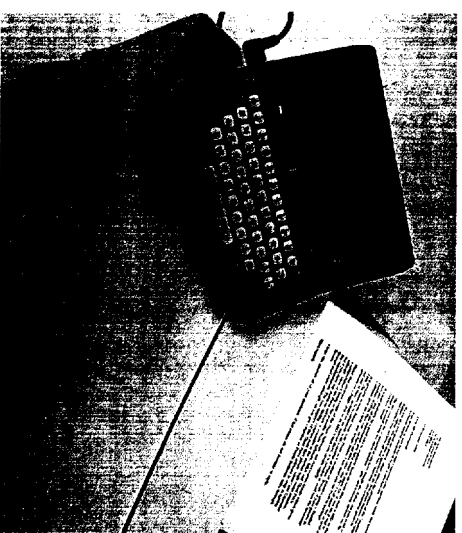

## PRINT TO ANY PRINTER

### Communication power – Parallel Link

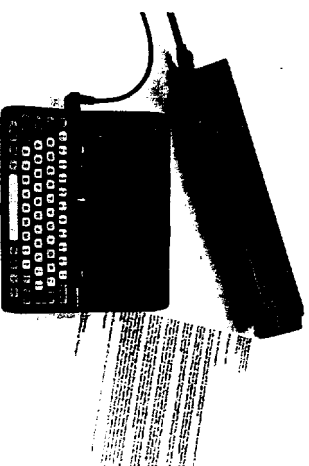

The Pision Parallel Link connects any model in the Series 3a range with parallel (centronics) printers, so you can get hard copy of your data. Your Pision Series 3a gives you a preview of how the printed pages will look.

**PISION Series 3a works with these printers:**

- Canon Bubblejet
- HP Deskjet/HP Laserjet
- Epson LQ; Epson RX
- IBM Proprietary
- Apple LaserWriter (PostScript)
- Citizen Printer

Drivers for other printers are available direct from Pision.

[查询"1601003910"供应商](#)

# FAX FROM YOUR POCKET

## Communication power – 3Fax

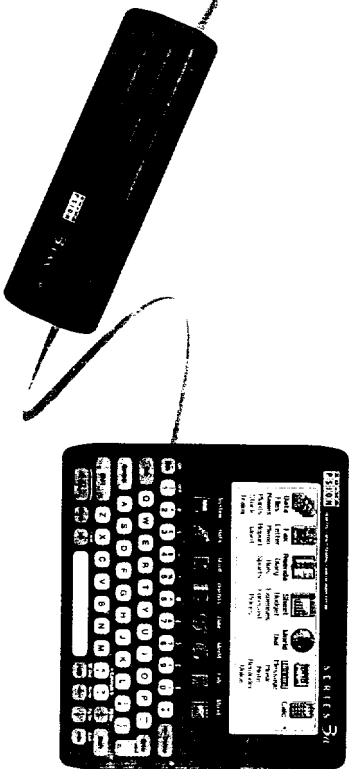

With 3Fax plugged into your Psion Series 3a (512K models and above), you can prepare important messages and documents, format them professionally, add cover sheets with your company logo and signature ... and fax them from the nearest phone. (3Fax is a send-only fax machine.) 3Fax also gives you modem access to on-line information services and email.

- Send Group 3 fax, 9600bps.
- Maintains a record of faxes sent.
- Preview a fax before sending.
- Queue and defer faxes for sending at different times.
- Fax includes a cover sheet designer and text editor (faxes can also be created from almost any Series 3a application that can print).
- A conversion service is available for graphics, including logos and signatures.
- Two AA batteries provide about 16 hours continuous use (approx. 1000 pages).

**3Fax is supplied** complete with all cables and free introductory membership to CompuServe. Log-on for the latest quotes, headline news or to check your mail box.

If you already own a portable modem, **3Fax Software** is available on a single Solid State Disk. (Requires 3Link Serial cable)

查询"1601003910"供应商

# GET THE MESSAGE...

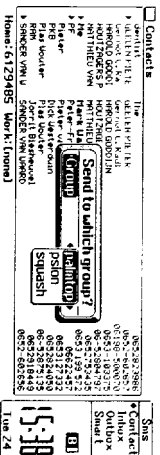

## Communication power – Vodafone Telenote Link

**Write message**  
Dear All,  
Would you all please get in touch with Christa at +31 20 6533033. Place/time will be broadcasted as soon as it is clear how best to coordinate this.

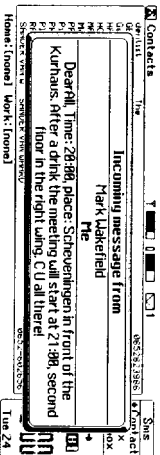

Press TAB to send

15:46  
Tue 24

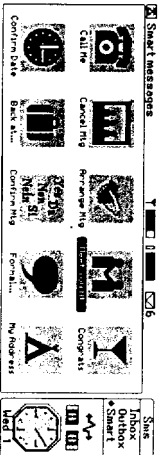

Compose messages on your Psion Series 3a using the keyboard and text editor.

Send text messages to a contact or broadcast to a defined group.

Received messages are flashed to the screen and stored in the inbox.

Use predefined smart messages for easy entry.

Psion Short Messaging is a low cost solution for viewing, editing, sending and receiving SMS (Short Messaging Service) messages over GSM digital mobile phone networks. It offers:

- Optional prompts every time a new message arrives, no matter what you are doing.
  - Message storage until the handset is connected and, unlike paging, messages can be re-sent if necessary.
  - Sent and received messages are kept respectively in an Outbox and Inbox, for easy tracking.
  - Received messages can be forwarded to someone else, and messages can be sent to a tagged list of recipients.
- You get:** Cable to connect your Series 3a to digital phones on the Vodafone network. • Series 3a software for sending and receiving text messages.
- PC software (on floppy disk), to send text messages direct from PC to digital phones and the Psion Series 3a.
  - User guide.

**Important notice:** At the time of printing,

Psion Short Messaging will work only with the Nokia 2110/2110i/2140, Philips PR747, and Orbitel 905 and 907 range of mobile phones. Versions of Psion Short Messaging will soon be available for other mobile phones and networks. Contact your dealer to check your phone compatibility.

# POWERFUL PLUG-IN APPLICATIONS

Extend your Series 3a's capabilities with software SSDs. The range is growing all the time and covers a spectrum of applications from business to entertainment. In addition to Psion software, over 60 titles are available from other developers. For a catalogue, please contact Customer Services on 0990 143050.

# CONTACT MANAGEMENT SOFTWARE

## ACT!™ For Psion Series 3a

More than just an aid, ACT!™ for Psion is a necessity for everyone who needs to keep in touch. This world famous business manager for the PC, from Symantec™ (over 1 million copies sold) is now available for the Series 3a.

Using three screens and 70 customisable fields, each contact record will hold all the information you need.

With the scheduler, see at a glance your plans for the day.

### With ACT!™ for Psion you can...

- Plan all calls, meetings and things to do with the integrated activity scheduler - with alarms to remind you in good time.
- Phone contacts automatically, time the call and record details of all telephone conversations (including those you receive) for future reference.
- Keep comprehensive details of all your contacts - who, where, phone numbers, when last contacted, things to do as a result of the last contact - in a customisable record format.
- Create letters, memos reports and faxes - using the templates provided, or your own designs.
- View lists of your contacts, jobs in hand, previous activities and notes.

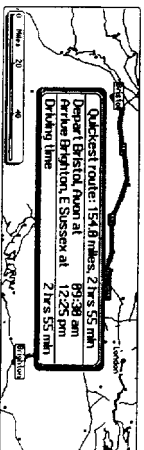

(Requires Series 3a 512K or higher)

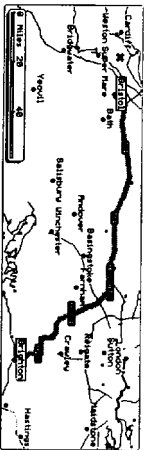

# WHERE DO YOU WANT TO GO TODAY?

## Route planning software - AutoRoute Express™

How long will it take to get to that destination... how far is it... how much will the petrol cost... what are the shortest and quickest routes? These are just a few of the questions answered for you in a flash with AutoRoute Express™ - the route

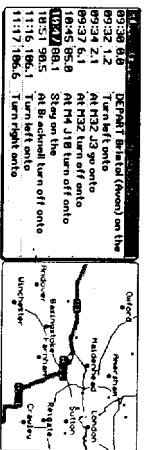

Choose the start and end points and the start time - and AutoRoute Express™ tells you the journey time!

See the route marked on a map - zoom in, increase or decrease the number of roads and places shown.

W/L	W/L	DEPART	Arrive (down) on the	A4844	1.2 m	E
09:32	1.2	Turn left onto	A4832	0.9 m	E	(A32 J3)
09:33	2.1	At H32 J3 go onto	M32	1.8 m	N	(A32 J2)
09:37	6.1	At H32 turn off onto	A3290	3.1 m	E	(T)roads
10:45	05.9	At H32 turn off onto	A329	2.4 m	SE	Bradfield
10:47	08.1	Stay on the	A322	15.6 m	SE	Bradford
10:51	08.5	At Bechurch turn off onto	A25	0.5 m	S	(part of main)
11:10	106.1	Turn left onto	A31	0.5 m	S	(part of main)
11:17	106.6	Turn right onto				

Detailed route table for easy to follow directions, can be printed out.

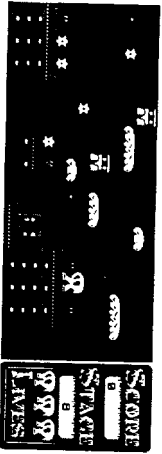

View directions and map (at the scale you choose) at the same time for easier route following.

- Select the shortest, quickest or preferred route.
- Set speeds and mileage costs for automatic time and journey cost calculations.
- Print (or fax, with 3Fax) journey directions, or copy them into the Word processor.
- Display maps - down to 0.2 miles to the inch - a direction table, or a split view showing both.
- Exclude roads, specify stop-off points, and select preferred road types for your journey.
- Select individual roads and place names for identification.

(Requires Series 3a 512K or higher)

# ACCEPT THE CHALLENGE!

## Leisure software – Games

Rescue Horace from the mystic woods

### Games Deluxe

Five exciting and challenging games for your Series 3a:

**Horace in the Mystic Woods** -

rescue him from 64 brain-teasing levels.

**Strange Fruit** – spin various objects in different directions to complete each level, unravelling the rules as you go.

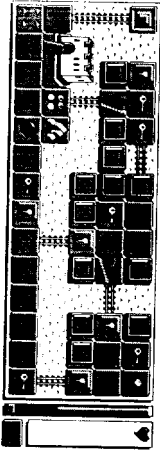

**Patio** – two popular 'patience' card games.

**Sigma** – guide a bouncing ball

through 100 levels in a race against time.

Strange fruit - original, and challenging

Bomz 3a - collect the balls and run for the exit.

### Games 3a

Test your skill and strategy with these graphic games:

**Bomz 3a** – move around collecting

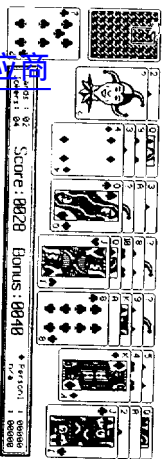

crystal balls as fast as you can.

**Fairway** – play 18-holes of 31D golf.

**Popout** – destroy the bricks to reach the next level.

**HomeRun** – a card 'patience' game for one or two players. (Built into Series 3a 1MB and 2MB models.)

**Lander 3** – pilot a space ship delivering cargo to various star bases.

HomeRun

### Games 2

While away those odd moments...

**Acespace** – a card sorting 'solitaire' game. **CrissX** – position crosses to clear the screen. **Theole (Othello)** – with 14 play levels. **Jumpy** –

guide Jumpy around an animated maze. **Slider** – shuffle tiles into order: eight difficulty levels. **EPO** – chase energy cells and avoid being trapped.

查询"1601003910"供应商

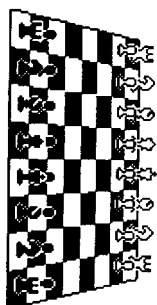

### Games 1

Never a dull moment...

**Pairs** – the traditional memory game. **Tilt** – guide a ball through obstacle courses. **Bomz** – collect crystal balls and race for the exit. **Ratler** – use luck and logic to clear the snakes. **Pitch** – a nine-hole 3D golf game complete with hazards. **Alien Swarm** – a fast action aliens "shoot-em-up". **Bicycle** – check your biorhythms.

### Chess

Test and improve your chess skills against a worthy and challenging opponent.

- Play against the computer, another person or watch while the Series 3a plays itself.
- 50 classic games with commentary by International Master William Harrison.

### Pipemania

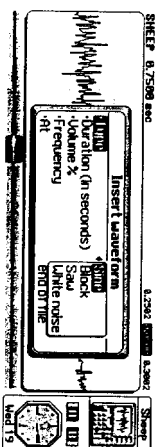

Highly acclaimed puzzle game that dominated the PC best-seller list – takes minutes to learn... a lifetime to master!

- Build a pipeline from the vast array of pipe sections while trying to stay ahead of the fast flowing 'flood'.
- Basic and expert levels of play; fast and slow modes, 36 increasingly cunning levels with infinite variations.

### SoundMaster

Access the Series 3a's unique audio facilities with powerful sound generation and editing functions, and 50 pre-recorded music and sound clips.

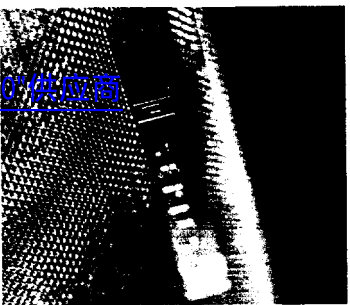

- Powerful editing facilities: splitting, speed adjustment, add echo, vibrato, and voxcode effects. Sounds can even be reversed.
  - Supplied on a 3.5" floppy disk.
- SoundMaster requires the 3Link Serial cable for copying from a PC to your Series 3a.

On-screen graphical representation of sound waveform

## Accessories

- **AC power adaptor 220/110v**
- **Executive leather case**  
A supple green and brown waller to hold the Psion Series 3a with pockets for 3 solid State Disks and business cards, tickets, etc.
- **Leather case**  
As the Executive leather case, but in black.
- **Black leather belt holster**
- **Carry case**  
The padded Series 3a case comes in black vinyl, it zips around the Series 3 or 3a and can hold extra SSDs, cheque book or a pen in 2 pockets.
- **Books**
  - First steps in programming the Psion
  - Serious programming on the Psion Series 3
  - Introduction to using the Psion Series 3
  - Using the Psion Series 3a
  - Useful programs for the Psion Series 3a

## About Psion

Psion PLC, headquartered in London, is the world leader in palmtop computers, with subsidiaries and distributors in over 40 countries.

USA operations are centred in Concord, Massachusetts with a West Coast regional support office.

In addition to making the Series 3a, Psion also produces software, data communication products and corporate systems.

The latest entry into the corporate systems market is the Psion Workabout. This uniquely rugged hand-held computer functions as a data collection and analysis terminal for a wide range of industrial applications.

Psion is committed to innovation and the on-going development of industry-leading products.

## Psion Series 3a at a glance

*The Series 3a is available in the following internal memory sizes:  
2MB · 1MB · 512K · 256K, with the built-in features listed below  
(except where indicated):*

FEATURES	PAGE
Day/week/year planner	2
Chronological list and anniversaries view	2
A series of To-Do lists	2
Database/addresses	4
Word processor	5
Zoom-in zoom-out through four font sizes	5
Print preview	5
Spellerchecker & Thesaurus (1MB & 2MB only)	5
Password protection	5
Spreadsheet	6
Calculator	6
Programming language	6
World times/dialling codes/distances	7
Voice recording and playback	7
Automatic telephone dialling	7
Patience card game (1MB & 2MB only)	18

### PHYSICAL

Weight - 275g [inc. batteries]  
Dimensions - 165mm x 85mm x 22mm  
480 x 160 [pixels], 80 x 17 [characters] greyscale screen  
Power supply - 2 AA Alkaline batteries [2-4 months use], Lithium backup cell

### Additional products for the Series 3a

#### COMMUNICATIONS

Ps/Win [includes 3link cable]	8
Serial link for Mac [includes 3link cable]	11
Parallel printer cable [electronics]	11
3Fax/modem [send only] (512K or higher)	12
AC mains adaptor [9V, 150mA]	

#### MEMORY

2 Solid State Disk drives	10
Up to 1MB RAM Solid State Disk capacity	10
Up to 4MB Flash Solid State Disk capacity	10
