

## N-Channel 75-V (D-S) MOSFET

### PRODUCT SUMMARY

| $V_{(BR)DSS}$ (V) | $r_{DS(on)}$ ( $\Omega$ ) | $I_D$ (A)       | $Q_g$ (Typ) |
|-------------------|---------------------------|-----------------|-------------|
| 75                | 0.0048 at $V_{GS} = 10$ V | 90 <sup>d</sup> | 105         |
|                   | 0.006 at $V_{GS} = 8$ V   | 90 <sup>d</sup> |             |

### FEATURES

- TrenchFET® Power MOSFET
- 175 °C Junction Temperature
- 100 % UIS Tested

### APPLICATIONS

- Power Supply
  - Half-Bridge
  - Secondary Synchronous Rectification
- Industrial

TO-263

Ordering Information: SUM90N08-4m8P-E3 (Lead (Pb)-free)

N-Channel MOSFET

### ABSOLUTE MAXIMUM RATINGS $T_C = 25$ °C, unless otherwise noted

| Parameter                                        | Symbol         | Limit            | Unit |
|--------------------------------------------------|----------------|------------------|------|
| Drain-Source Voltage                             | $V_{DS}$       | 75               | V    |
| Gate-Source Voltage                              | $V_{GS}$       | $\pm 20$         |      |
| Continuous Drain Current ( $T_J = 175$ °C)       | $I_D$          | 90 <sup>d</sup>  | A    |
|                                                  |                | 90 <sup>d</sup>  |      |
| Pulsed Drain Current                             | $I_{DM}$       | 240              |      |
| Avalanche Current                                | $I_{AS}$       | 70               |      |
| Single Pulse Avalanche Energy <sup>a</sup>       | $E_{AS}$       | 245              | mJ   |
| Maximum Power Dissipation <sup>a</sup>           | $P_D$          | 300 <sup>b</sup> | W    |
|                                                  |                | 3.75             |      |
| Operating Junction and Storage Temperature Range | $T_J, T_{stg}$ | - 55 to 175      | °C   |

### THERMAL RESISTANCE RATINGS

| Parameter                                    | Symbol     | Limit | Unit |
|----------------------------------------------|------------|-------|------|
| Junction-to-Ambient (PCB Mount) <sup>c</sup> | $R_{thJA}$ | 40    | °C/W |
| Junction-to-Case (Drain)                     | $R_{thJC}$ | 0.5   |      |

Notes:

- Duty cycle  $\leq 1$  %.
- See SOA curve for voltage derating.
- When Mounted on 1" square PCB (FR-4 material).
- Package limited.

| SPECIFICATIONS T <sub>J</sub> = 25 °C, unless otherwise noted                        |                      |                                                                                                                        |     |        |        |      |

| Peak Reverse Recovery Current                                                        | I <sub>RM(REC)</sub> |                                                                                                                        |     | 2.6    | 4      | A    |
| Reverse Recovery Charge                                                              | Q <sub>rr</sub>      |                                                                                                                        |     |        | 88     | 132  |

## Notes:

- a. Pulse test; pulse width  $\leq 300\text{ }\mu\text{s}$ , duty cycle  $\leq 2\%$ .  
b. Guaranteed by design, not subject to production testing.  
c. Independent of operating temperature.

Stresses beyond those listed under "Absolute Maximum Ratings" may cause permanent damage to the device. These are stress ratings only, and functional operation of the device at these or any other conditions beyond those indicated in the operational sections of the specifications is not implied. Exposure to absolute maximum rating conditions for extended periods may affect device reliability.

**TYPICAL CHARACTERISTICS** 25 °C, unless otherwise noted

Maximum Drain Current vs. Case Temperature

\* $V_{GS} >$  minimum  $V_{GS}$  at which  $r_{DS(on)}$  is specified

Safe Operating Area

Normalized Thermal Transient Impedance, Junction-to-Case

Vishay Siliconix maintains worldwide manufacturing capability. Products may be manufactured at one of several qualified locations. Reliability data for Silicon Technology and Package Reliability represent a composite of all qualified locations. For related documents such as package/tape drawings, part marking, and reliability data, see <http://www.vishay.com/ppg?74458>.

## Disclaimer

All product specifications and data are subject to change without notice.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained herein or in any other disclosure relating to any product.

Vishay disclaims any and all liability arising out of the use or application of any product described herein or of any information provided herein to the maximum extent permitted by law. The product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein, which apply to these products.
