Low Profile KK® Receptacle Combines Top and Bottom Header Entry in One Connector

The new 44812 series Low Profile PC Board Connector is a significant step forward in updating the KK product line to reflect customer's needs in the 21st century. Utilizing terminal design features from the SPOX™ family, Molex has been able to improve performance while shrinking the overall package. The new design functions as both a top and bottom entry version, and retrofits into existing KK .100" Pitch bottom entry PCB layouts. Overall connector height has been reduced by almost 50%! The housing is made out of high temperature nylon for surface mount compatibility. The new design also permits higher current ratings and a higher operating temperature.

Features and Benefits

- 5.0A per line increases current carrying capacity
- Compact 4.5mm height above PC board allows closer board stacking and is nearly half the height of existing receptacles
- Improved terminal design permits higher operating temperatures, up to +105°C
- Top and bottom entry mating provides versatile design feature in one cost-conscious style
- Connector can be retrofitted into existing PC board layouts which ensures convenient transition with various mating headers
- Surface-mount compatible housing eliminates potential processing issues

SPECIFICATIONS

Reference Information

Packaging: Tray

UL File No.: E29179

CSA File No.: LR 19980

Mates With: 4030, 4094, 42225, 42226, 42227,
42228, 42152, 42153, 42375, 42376, 42377,
42624

Designed In: Inches

Electrical

Voltage: 250 Volts AC (RMS)
176 Volts DC

Current: 5 Amperes

Contact Resistance: 30mΩ max. initial
10mΩ max. increase over initial

Dielectric Withstanding Voltage: 1,000V

Insulation Resistance: 1,000MΩ

Mechanical

Contact Insertion Force: N/A

Contact Retention to Housing: 15.6N min.

Insertion Force to PCB: Varies

Mating Force: 7.6N per contact max.

Unmating Force: 2.7N per contact min.

Durability: 25 cycles

Physical

Housing: Glass Filled 4/6 nylon

Contact: Copper Alloy

Plating: Contact Area – Tin or Gold

Solder Tail Area --Tin

Underplating -- Nickel

PCB Thickness: 0.062"

Operating Temperature: +105°C

APPLICATIONS

- HVAC [查询"44812-0004"供应商](#)
- Automotive components
 - Radios
 - HVAC
 - Controls
- Medical equipment
- Home entertainment
- Home security
- Servers, PCs, routers, hubs
- Distribution – only one part to stock for two functions, providing reduced carrying costs
- Can be used virtually anywhere two boards need to be connected together
