Cable gland with spiral bending protection for additional reliability with PG connection thread

SKINTOP® BS with spiral bending protection

Bending protection is a particular characteristic of cable protection and therefore an important safety feature for flexible cables on hand-held equipment, moving machine parts and in the many applications of the instrument industry, the SKINTOP® BS cable glands with spiral guards offers additional security against conductor break and therefore reduces the risk of failure. It is VDE, UL, SEV and CSA-approved.

Suitable accessories see page 439.

Technical Data

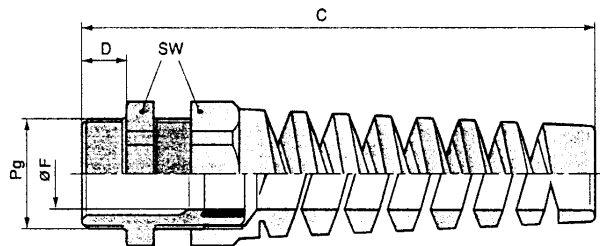

Material:
Body: Polyamide
Sealing: Neoprene

Temperature range:
-20 °C to +80 °C

Standard Colour:
RAL 7001 silver grey
RAL 7035 light grey
RAL 9005 black

Protection class: IP 68 -5 bar

On request:
NPT and special threads
