Tungsten-halogen lamps for mains voltage
HALOPAR® 20 with dichroic reflector CB
64836 SP

Page 1

Reference :	64836 SP	Watt :	50
Luminous intensity [cd] :	3200	Beam angle [degrees] :	10
Average life [h] :	2000	Diameter d max. [mm] :	64,5
Length l max. [mm] :	91	Base :	E27
Standard pack [pcs] :	15	EAN 40 50300 :	406848
ILCOS :	HRPAR-50-230-64,5/10		

OSRAM HALOPAR® is the bright alternative to conventional reflector lamps.

- Simple mains operation, no transformer required
- Brilliant white halogen light in two beam angles for accent lighting
- Up to 35% higher luminous intensity than conventional reflector lamps
- 15% energy savings
- 2000 h lamp life
- Faceted reflector with clear shield
- For heat sensitive objects: special versions with dichroic reflectors allow two-thirds of the thermal radiation to pass backwards
- Colour temperature approx. 2900K

THERE IS LIGHT. AND THERE IS OSRAM.
